

ANOTHER FLUKE IN RACE TODAY

Wind is Such Boats Cannot Finish Within the Time Limit.

PROGRESS IS SLOW

Boats Seem To Be Evenly Matched in Breeze They Are Working With.

TIME IS AN OBJECT

Highland, N. J., Oct. 1.—The Shamrock rounded the first mark at 2:40 and the Columbia at 2:43:43. As the wind is not blowing over six knots the boats will not finish within the time limit. The race will be rescheduled next Thursday.

Highlands, N. J., Oct. 1.—A twelve knot breeze blew this morning to make glad the hearts of Lipton and his crew. It was a Shamrock breeze and the challenger's admirers saw in it victory for Lipton's boat in today's race. The sea was smooth as glass. About nine o'clock the boats took tow for the various points. The betting is light on the race. The Columbia is in favor at ten to eight. The betting is five to three that she will successfully defend the cup.

Excites Keenest Interest. This will be the first time the two boats have been on a course which is designed to search out every virtue or shortcoming of a sailing yacht, for the triangular course is one which brings out the all-around paces of a racer, beating to windward, reaching and running.

This reason alone would be sufficient to excite the keenest interest in today's proceedings. But there are others. The close contest of Saturday is still remembered with a thrill by the many thousands who witnessed that hard-fought battle for the cup, and there are many who believe that today's event will prove equally exciting.

From a Shamrock point of view much depends upon the weather. "What we want," said Sir Thomas early this morning, "is a west to southwest wind, with a slight sea. Let the breeze be as strong as it may be, anything less than a gale and more than ten knots. That is Shamrock weather, and if Providence sends it, we will win."

Americans Expect to Win. And every Columbia adherent who read of that hope of Lipton's felt a glow of pride in the thought that his own favorite is more independent of the vagaries of meteorological conditions, and it will take a westerly wind with the same welcome that she gave to the easterly breeze of Saturday.

One race, as everybody knows, is already secure, and there are many who believe while Shamrock II. is the most dangerous challenger that ever crossed the ocean on a cup-hunting expedition that at least two more of the series will be placed to the Columbia's credit, thus insuring the retention of the trophy, the series being the best three out of five events.

Wind Began to Die Out. Just before the starting gun was fired, the wind began to die away, raising the hopes of Columbia's followers. The start was made at eleven, the Columbia being the first to cross the line.

The first leg of the triangle was a beat to windward of ten miles. When the preparatory gun was fired there was little wind out to sea and the yachts moved sluggishly. The fight for position as in the previous contests was exciting but the Columbia could not be caught napping and got the weather position. In crossing the line the Shamrock was only a few seconds behind the Columbia. The race was only a few minutes old when

CONGREGATIONALISTS IN SESSION; HOLD CONVENTION IN MILWAUKEE

About 250 Pastors and 150 Laymen Representing 20,000 Members in the State Are Gathered.

Milwaukee, Wis., Oct. 1.—The results of sixty-one years of Congregationalism in Wisconsin can be seen in the personnel of the convention which opened a three days' session today in Plymouth church. About 250 pastors and 150 laymen make up the convention. The membership of the churches affiliated with the body has grown to 20,000.

The convention was called to order at 10 o'clock this morning by the Rev. E. G. Updike of Madison, the moderator of last year's convention. The registrar, the Rev. H. A. Miner of Madison presented his report.

The subject of the afternoon meeting is "Our Foreign-born Population." Papers by the Rev. R. C. Hughes, president of Ripon college, and the Rev. H. A. Schaffner of Cleveland, O., will touch on the possibilities of schools and churches in Americanizing foreigners.

One of the men with a national reputation who will address the convention this evening is the Rev. W. S. Ament of the North China mission, whose views on settling with the Chinese for atrocities committed were

PROSPEROUS YEAR FOR THE STATE; EVERY WARRANT WAS REDEEMED

According to the Balance Sheet Last Night, the Various Funds in the State Treasury Amounted to \$949,097.76—State Department Increase.

Madison, Wis., Oct. 1.—This was the end of the fiscal year for all departments of the state government, and on the whole the year was one of the most prosperous experienced by the commonwealth. Departments that issue annual reports, and they are few because the statutes provide principally for biennial reports, will require several months in which to make the necessary compilations.

For the first time in many years every warrant drawn on the state treasury has been redeemed. Frequently persons holding state warrants do not present them for payment until long after the date of their issue. This month, however, all warrants were turned in, so that the balance sheet shows just how much money the state has. According to this balance sheet the various funds contained at the close of business this morning is just \$949,097.76.

The general fund, which is used to meet the ordinary expenses of gov-

ernment (except the maintenance of the state university, normal schools and most of the other educational institutions), contained \$517,842.14, against \$496,400.74 a year ago.

The department of state did a flourishing business the past year, its receipts increasing nearly 100 percent. The increase was largely due to the increase in the fees of filing of articles of incorporation. This increase, however, has only been in force since July 1. For the year ending last September, the fees for filing articles of incorporation, together with some small miscellaneous fees, aggregated \$31,183.65, against \$55,911.20 for the year ending today.

Exclusive of miscellaneous fees, the receipts for filing articles of incorporation the past year, were \$55,071.65. The receipts for hunting licenses last year were \$4,185.40 against \$3,935.55 this year and those for issuing notary certificates \$2,813 against \$3,178.30.

George Parmley, formerly a resident of the town of Center, has returned to this city after a two years' sojourn in Cuba, a short distance from Havana. Mr. Parmley is very much pleased with Cuba as a place to live and thinks the climate far better than that of California.

During the summer months the thermometer seldom went higher than 92, and was usually about 87.

During the time he was in Cuba he ran a large truck garden and raised vegetables for the Havana market. The growing time in Cuba is from October 1st to May. Considerable tobacco is raised near Havana and about three crops a year are harvested from one setting; two crops are cured out and the last one used for seed. When the first crop is cut the second crop comes right on from the same stalk and the third in the same manner.

From fifteen to twenty-five thousand plants are set out to the acre. During the last summer in Havana the sanitary corps have been waging war against the mosquitoes, and as a result there has not been a case of yellow fever in the city since last May. It has been clearly established that a certain kind of mosquito carries yellow fever. He left Cuba on his way home September 3rd and will remain here as his wife is not in love with the manners and customs of the country.

Mr. Parmley fears that there will be serious trouble in Cuba when the United States troops are withdrawn as three of four different factions are trying to get control of the government. The past summer in Wisconsin was hotter than any he encountered while living in Cuba.

BOERS CAPTURE A BRITISH CONVOY

London, Oct. 1.—A Reuter dispatch says that a large British convoy was captured and wagons burned six miles from Melmoth, Zululand. Kitchener reports as follows: The Boers in force under Delany and Kemp attacked Kekewich at Medewill yesterday but were driven off."

CAPT. ACHTERBERG CONCLUDES TO QUIT

Resigns from Company I, W. N. G. in Order to Better Attend to His Private Business.

Captain Charles F. Achterberg of Company I, W. N. G., has forwarded his resignation to the adjutant general as captain of the company, to take effect at once.

Captain Achterberg feels that he has done all that he is able to in the way of bringing the company up to its present standard and asks on account of business matters that he be relieved of the command. Captain Achterberg sent in his resignation to headquarters last spring but was prevailed on to continue in command of the company until after the annual encampment at that time and now that the encampment has passed has again asked to be relieved.

The feeling between the captain and his company is of the best and it will be a source of regret to them to have him leave.

GEORGE PARMLEY IS PLEASED IN CUBA

Rock County Man Spent Some Time in the Islands Raising Vegetables for the Market.

H. KIRK WHITE SUES MRS. PHILLIPS

Interesting Case in Justice Reeder's Court—Judgment Given in Favor of Plaintiff.

The case of H. Kirk White against Mrs. Fannie Phillips, to recover the price of some drugs and medicines furnished her, has been on trial in Justice Reeder's court.

The bill amounted to \$7.54, but rather than pay it Mrs. Phillips decided to have a law suit. The outcome of the suit was that he justice found for the plaintiff and assessed his damages at \$7.54 with \$1.13 interest and \$12.91 costs or in all \$21.61 which the defendant paid.

NINE HOURS LABOR NOW IN FORCE

Carpenters Commenced Yesterday—Effects About Two Hundred Men in Janesville.

The union carpenters of Janesville are now working under a nine-hour schedule with the same pay as formerly. The new rule went into effect today and about two hundred men will cease work tonight when the five o'clock whistle blows, instead of at six as heretofore. It is reported that on and after January 1, 1902 that the painters will demand a nine-hour schedule instead of ten as at present.

Next year all contractors will have to figure all work on a nine-hour basis as about all the classes of workmen now have a nine-hour schedule.

Mr. and Mrs. Fred M. Blakely are the proud parents of a baby girl which arrived this morning to brighten the family circle.

CROSS EXAMINED ADMIRAL EVANS

Strongly Denies a Conversation He Was Reported To Have Had with Admiral Schley.

Washington, D. C., Oct. 1.—The usual session of the court of inquiry was held today. There had been some thought of adjournment on account of the death of Lemly's sister. Her funeral was today, so it was impossible for Lemly to attend. He took no part in today's proceedings.

The cross examination of Evans was resumed. He denied that he said to Schley the day after the battle that the Texas had started to run away at the beginning of the engagement and that Schley replied that it was the Brooklyn and not the Texas that had made the movement. He said that no such conversation had occurred at any time.

Evans testified that he was at a conference on the Brooklyn on May 29 at which Schley said that he felt the country held him responsible for the fleet and he hesitated to assume the risk of engaging the shore batteries until the Spanish fleet was destroyed.

Reviewing the injury to the Iowa's guns it was said by Evans to have been caused by the extreme elevation, May 31, to catch the eleven thousand yard range to the Colon. He admitted that they had afterwards been equally damaged by the twenty-seven hundred yard range.

Evans left the stand after testifying that he felt captains had not been told what to do if the enemy had been suddenly encountered. They would have been obliged to depend on the signals.

HIS FATHER IS "IT"

The Way Kermit Roosevelt Gave His Father's Occupation to His School Teacher.

Washington, D. C., Oct. 1.—Ethel and Kermit Roosevelt began the school year yesterday. The little girl, accompanied by Miss Young, took an electric car in the morning and rode out to the cathedral schools for girls on Woodley Lane.

Kermit had a more eventful day. With Wm. Pinckney he arrived at Mr. Preston's select school for boys at 9 o'clock. Kermit gave his name with much precision, spelling it slowly and carefully, and explaining to Mr. Preston that this was a boy's and not a girl's, as so many people thought adding that it was his mother's middle name.

Mr. Preston then asked the customary questions about his parents and their own. Kermit became lively. "My father's name is Theodore Roosevelt, and—well, he is 'it,'" he ended with a merry laugh.

He became more general in his information about his distinguished parents, but Mr. Preston, with great dignity, waived these subjects, and entered the boy on his books as the son of Theodore Roosevelt, president of the United States.

HEIRSS DIES IN POORHOUSE.

Woman to Whom \$40,000 Is Left Expires While Being Sought.

Wilkesbarre, Pa., Oct. 1.—Rudolph Beck, a bookbinder of Brooklyn, N. Y., died Nov. 27, 1893, leaving an estate of \$40,000. A banking house of New York was named as executor, but could find no relatives of the man until several months ago, when it was learned that a distant relative named Mrs. Christiana Mathias was once a resident of this city. A representative of the banking firm came here to investigate, only to find today that the woman died in the poorhouse last November.

Fronted by Greeley's Advice. In 1869 Governor Orman, of Colorado, then a poor boy, took Horace Greeley's advice and went west to grow up with the country, getting work as a railroad laborer. He rose in the business and has been connected with it for thirty years.

ROCK COUNTY HORSES

Some of Them Exhibited at the Dane County Fair Last Week Bring Fancy Prices.

Through the agency of Anthony Dixon, the well-known horse-trainer, a team of fancy carriage horses belonging to M. D. Owen of Footville, were sold to Joseph Kalser of Madison, last Saturday. The consideration was \$600 and Mr. Kalser became interested in the team at the Dane county fair which was held in Madison last week, the horses being on exhibition. These same horses took two first prizes at the Beloit Interstate fair recently for the best single and double.

Another Rock county horse, Nellie Gray, owned by Jerome Shmeal, of Shopshire, also won distinction at the Dane county fair. She captured first money in a special race called the Janesville special in which four Rock county horses competed for a \$100 purse. Alice, owned by H. S. Ames, won second money and Nellie D., owned by Anthony Dixon, third. Charles Britton, the property of W. Atwood of Brodhead, finished fourth. The best time was 2:35.

Selects Three Rowing Crews.

Milwaukee, Wis., Oct. 1.—Coach Andrew O'Dea of Wisconsin University has organized three crews, consisting of a sophomore law crew, and senior and junior crew; with the object of holding races before real cold weather sets in. He hopes in this way to develop material for next spring's crews.

PROF. G. W. BRACE SERIOUSLY HURT

Second Finger of His Right Hand Badly Cut by Knife on Planing Machine.

Prof. George W. Brace, instructor in the High school manual training department, had a painful accident this morning which will necessitate a careful use of his right hand for some time. The second finger on his right hand was badly cut by the knife on the planing machine and a portion of the nail and flesh was torn off. It was a narrow escape from a more serious injury.

The accident occurred about ten o'clock while Prof. Brace was at work with one of his classes. He does not allow the boys to use the planer and he was running a small stick through one of the machines. A knot in the end of the stick caught against the knife and the stick was jerked backward from under Prof. Brace's hand and thrown across the room. Prof. Brace's finger was drawn against the knife and badly cut. He bound the finger with rubber bands to stop the flow of blood. Dr. Joe Whiting was sent for and found the injury less serious than had been supposed. The injured finger was dressed and no serious results will follow. It is the first accident of any kind which Prof. Brace has ever had in his twelve years' experience with machinery.

CALL THE SPORT CRUEL.

Auto Bull Fight at Bayonne Arouses French Humane Society.

Paris, Oct. 1.—The French Society for the Prevention of Cruelty to Animals, which so often has successfully opposed bull fights in France during past years, is now girding up its loins preparatory to renewing the struggle, fearing a repetition of yesterday's cruel scene at Bayonne, where the bull was attacked by matadors riding in a modern twelve-horse-power automobile.

M. Deutsch, president of the Aero club, presided at the bull fight. The use of an automobile for such a purpose becomes the subject of harsh comment in Paris this morning, since sportsmen agree that an automobile does not add to the sportsmanlike element of the conflict and merely panders to the morbidly cruel taste of the spectators.

On the other hand, partisans of the bull-fighters declare that the innovation of the automobile is an excellent thing, since if automobilists grow interested in the institution bull-fighting will surely become a favorite sport with many influential persons in France.

Pronunciation of Roosevelt

Washington, Oct. 1.—The proper pronunciation of the president's family name is not as though it were Roosevelt, but Rose-zvelt. The family is sensitive about such matters. The Roosevelt family is of Dutch origin, and therefore desirous that the family name should be properly enunciated.

FIFTEEN MEN ARE ENTOMBED

Many Miners Probably Killed in an Explosion Near Victoria.

NO HOPE FOR THEM

Are Helpless Underneath the Earth's Surface Amid Smoke and Flames.

THEY CAN GET NO AIR

Victoria, Oct. 1.—Fire is still raging in the Extension mines and there is absolutely no hope for the fifteen men entombed. When the fire was discovered all the men in the mines got out, but fifteen returned to fight the flames. They never came back.

Victoria, B. C., Oct. 1.—Premier Dunsmuir, president of the Wellington Colliery Company, has just received the following dispatch from Alexander Brlon, manager of the extension mines of that company, situated near Ladysmith:

"Fire occurred in No. 2 slope at No. 3 level, which made such headway that in half an hour it was half way up the slope, spreading to the airways and workings of No. 2 and No. 3 mines. I was obliged to stop both of the mines after two explosions. Have lost some men but cannot say how many."

Nanaimo, B. C., Oct. 1.—No. 2 slope at Extension is on fire and dense clouds of black smoke can be seen from here. Full particulars are not obtainable, but a late report says that from eight to fifteen men are in danger, if not lost. It is said that it was impossible to get air to them and that they are probably dead. The fire broke out in the evening. The cause is not yet known. The management has sent for hose and fire apparatus to all points in this vicinity. The miners supposed to be lost are: MacCallum, Reeves, Watson, "Tony," an Italian, name unknown; David Griffiths, Blakely, David Mottishaw and Mike Dolan, and several others are unaccounted for.

FREE EMPLOYMENT BUREAUS PROSPER

Have Found Work for 1842 Persons During the Twelve Weeks of Their Existence.

Madison, Wis., Oct. 1.—(Special)—The free state employment bureaus established by the act of the last legislature at Milwaukee and Superior have found employment for 1,842 persons during the twelve weeks of their existence. The results attained are steadily increasing, the number of positions filled last week numbering 190, while the average for the twelve weeks is about 150. There are more applicants for help than for employment; 240 applications for help and 223 applications for employment were filed last week, while 50 applications for help and 33 applications for positions were unfilled.

During the twelve weeks the bureaus have been in existence 2,622 applications for help and 2,267 applications for employment have been filed, and 1,842 positions filled; 780 applications for help and 425 applications for employment were unfilled during the entire period.

Pronunciation of Roosevelt. Washington, Oct. 1.—The proper pronunciation of the president's family name is not as though it were Roosevelt, but Rose-zvelt. The family is sensitive about such matters. The Roosevelt family is of Dutch origin, and therefore desirous that the family name should be properly enunciated.

FARMERS MEET AT SIOUX FALLS; NATIONAL CONGRESS BEGAN TODAY

Twenty-First Annual Convention is in Session—Every Agricultural State in Union Is Represented.

Sioux Falls, S. D., Oct. 1.—The twenty-first annual meeting of the Farmers' National congress met here today for a convention lasting four days. Many delegates arrived this morning promising a good attendance during the sessions of the congress. When all the delegates arrive practically every state in the union will be represented. The interior of the Auditorium where the session is held is artistically decorated with the various grains, grasses and other products of South Dakota.

At ten o'clock the congress was called to order by President R. F. Candage of Brookline, Mass. The session Eugene Secor of Iowa will speak on "Some Problems Confronting the American Farmer." An address on "Social Life for the Farming Community" will be delivered by O. C. Gregg of Minnesota.

COUNCIL AGREE TO VACATE HIGH ST.

ST. PAUL ROAD WILL NOW PUT UP, NEW DEPOT.

Aldermen Also Passed the Ordinance Granting P. L. Spooner of Madison, a Franchise to Construct and Operate an Electric Road in This City—Other Business Transacted

The common council at its meeting last evening made short work of the question whether or not a portion of High street should be vacated in order that the Chicago, Milwaukee & St. Paul railroad company might build its passenger station. The ordinance vacating all but thirty feet of the street was presented by Alderman Field of the highway committee and given its first and second readings and under a suspension of the rules given its third reading and passed.

They also passed the ordinance granting to P. L. Spooner, his heirs or assigns, the right to construct, maintain and operate an electric railroad in the City of Janesville from the city limits down North Bluff street to North First street, then down to Main street and on Main street to its intersection with East Milwaukee street.

Mayor Richardson presided at the meeting and all the aldermen were present except Alderman Rice. The reading of the minutes was dispensed with and the business of the evening taken up.

A petition from George K. Colling asking that a rebate of \$3 be made him for sidewalk repairs made by the city. He also asked that the assessment on his home at the corner of Wall and Washington streets be reduced. It was assessed at \$1,400. He bought it for \$1,000 laid out \$100 in repairs, and now offered it for sale for \$1,200. The petition was referred to the finance committee who were given time to look the matter up.

The report of the assistant street commissioner on sidewalks built by him was presented and placed on file.

A petition from the P. Hohenadel, Jr., company asking for an extension of the water mains on McKee boulevard to their factory for fire protection was referred to the fire and water committee. An invitation from Mr. Hohenadel to the council to visit the plant and see whether or not the extension was necessary, was accepted.

The judiciary committee to whom was left the matter of purchasing the Fredendall lot on Racine street now occupied by the Third ward voting booth of the 2nd precinct for \$300, reported favorably and recommended the purchase of the same.

The report of the highway committee on the cost of macadamizing Marion, South Franklin, Academy and Pleasant streets and the amount due the contractors was adopted.

The resolution fixing the benefits and damages to the several pieces of property on Marion, Academy, South Franklin and Pleasant streets, and calling for the issuing of bonds to cover the same was adopted.

The finance committee reported favorably on a large batch of bills and the clerk was instructed to draw orders on the treasurer for the same.

The petition of the Chicago, Milwaukee & St. Paul railroad asking that a portion of High street be vacated, was presented by Alderman Field of the highway committee. It stated that the petition was signed by nearly all of the residents of this street and moved that the petition be granted. The ordinance granting the road the right to erect and maintain a passenger station at this point, and to build a partition or shed over the portion of the street not vacated, and to block the crossing not to exceed fifteen minutes with a passenger train was given first and second readings and then passed under a suspension of the rules.

The ordinance giving P. L. Spooner the right to operate an electric road was given its third reading and put upon its passage.

HERE TODAY; GONE TOMORROW

How many pennies and how many dollars have slipped through your fingers—gone, and nothing to show for them? Carelessness, one reason; improvidence, another; rash speculation, another. The only certainty that remains is the certainty you haven't got them. Would you have your pennies and your dollars here today, here tomorrow? A policy in the Aetna Life Insurance Company will safeguard this and best of all will safeguard your family. Harlin E. Cary, Gen'l Agent, New Phone, 222, Suite 415, Hayes Block.

The Janesville Machine company was given permission to place a fire

pump in Center street and to erect a brick building 12x20 and ten feet high for the protection of the pump. They were also given permission to lay pipes in Center street for use in connection with the pump.

James Carroll was given permission to use a portion of Rock street in front of lot 24, S. B. & S. addition for storing building material during the erection of a house.

C. S. Jackman, A. P. Burnham, Victor P. Richardson, W. L. Carle, George G. Sutherland and others were given the right to construct a sewer from the west side of Harrison street down St. Lawrence place and Park place to connect with the county sewer at the corner of South First and Bluff streets under the usual conditions.

The city engineer was instructed to prepare a grade for Prospect avenue between Garfield and Milton avenues. A resolution calling for the improvement of North Franklin street was carried.

GLOBE SIGHTS.

As a rule, people are disappointed in compliments; they always expect more.

Learn to accept defeat without considering that every man who opposes you is your enemy.

Women are so governed by style that they cannot carry a watch except when it is fashionable.

When a woman burns the steak she thinks that a flower laid beside it on the plate is apology enough for any man.

It makes no difference what grammatical errors are made in paying a compliment to a man, he will never notice them.

When a guest at a dinner table knows why you should eat this, and why you shouldn't eat that, he or she knows too much to be interesting.—Acheson Globe.

REFLECTIONS OF A BACHELOR.

Life and a desire to live march in inverse ratio.

A NEW DEPARTURE.

A New, Efficient and Convenient Cure for Catarrh.

Of catarrh remedies there is no end, but of catarrh cures, there has always been a scarcity. There are many remedies to relieve, but very few that really cure.

The old practice of snuffing salt water through the nose would often

relieve and the washes, douches, powders and inhalers in common use are very little, if any better than the old fashioned salt water douche.

The use of inhalers, and the applications of salves, washes and powders to the nose and throat to cure catarrh is no more reasonable than to rub the back to cure kidney disease. Catarrh is just as much a blood disease as kidney trouble or rheumatism and it cannot be cured by local treatment any more than they can be.

To cure catarrh, whether in the head, throat, or stomach an internal antiseptic treatment is necessary to drive the catarrhal poison out of the blood and system, and the new catarrh cure is designed on this plan, and the remarkable success of Stuart's Catarrh Tablets is because being used internally it drives out catarrhal infection through action upon stomach, liver and bowels.

Wm. Zimmerman of St. Joseph, relates an experience with catarrh which is of value to millions of catarrh sufferers everywhere. He says: "I neglected a slight nasal catarrh until it extended to my throat and bronchial tubes and finally even my stomach and liver became affected, but as I was able to keep up and do a day's work I let it run along until my hearing began to fail me and then I realized that I must get rid of catarrh or lose my position as I was clerk and my hearing was absolutely necessary."

"Some of my friends recommended an inhaler, another a catarrh salve, but they were no good in my case, nor was anything else until I heard of Stuart's Catarrh Tablets and bought a package at my drug store. They benefited me from the start, and in less than four months I was completely cured of catarrh although I had suffered nearly all my life from it."

"They are pleasant to take and so much more convenient to use than other catarrh remedies that I feel I cannot say enough in favor of Stuart's Catarrh Tablets."

A little book on cause and cure of catarrh will be mailed free by addressing F. A. Stuart Co., Marshall, Mich., and the tablets are sold by all druggists in the United States and Canada.

Beloit Students Banquet

A number of Beloit college students members of the Beta Theta Pi fraternity came up from Beloit last evening and held a social and banquet at the Hotel Myers. Mrs. Osborne Sampson acted as chaperon. Those who composed the party were Misses Helen Sedgwick, M. E. Wilder, E. Sherman, Amelia Cowgill, Beale Saunders and Fannie Rosenblatt, and Messrs. D. C. Plank, J. MacQuade, J. S. Hale, J. W. Wilbur, W. K. Gillett and H. Smith. They started on the return trip to Beloit about eleven o'clock. They were a jolly crowd and all perfect ladies and gentlemen.

Had A Surprise Party.

A number of friends of Mr. and Mrs. Elmer Maine, tendered them a surprise party last evening on the occasion of their twenty-seventh wedding anniversary. Tuckwood's orchestra furnished the music for the evening and all had a glorious time. A fine luncheon was served and enjoyed by all. A number of handsome gifts were made by the friends of the happy couple. Mr. Maine presented his wife with a handsome gold watch and chain.

NEW AUDITORIUM TO IMMEDIATE USE

High School Hall Will Be Thrown Open to Children and Their Parents During Winter.

The new auditorium in the high school building is to be put to immediate use for the benefit of the school children of the city and their parents. During the winter it will be thrown open to them frequently and every effort will be made to make it one of the educational centers in the city and a place where the children and their parents can meet together with pleasure and profit.

As a means to secure this end Supt. H. C. Buell has arranged for a course of lectures and entertainments to be held in the auditorium during the coming winter. The course will open one week from Friday night with an entertainment by the C. W. Best Concert company. This company includes Master Leyton Potter, 14 years old, violinist; Master Harry Alein Storms, 13 years old and Miss Lilith Storms, 11 years old, readers; Frank Pfunder, 11 years old, soprano; and C. W. Best, pianist and director.

On Friday evening, Nov. 16, Prof. William H. Dudley, who is connected with the university extension lecture bureau of the university of Chicago, will give a lecture on "Birds and Animals" illustrated with colored stereopticon slides. The December entertainment given on Friday evening, December 6, will also be a lecture. It will be given by William Hawley Smith, the author of "The Evolution of Man," and will be one of his educational lectures which are so exceedingly popular. It will be remembered that the noted author and lecturer appeared here in connection with the summer school a few years ago and that his large audience was delighted with his lecture.

Friday evening, Jan. 31, the entertainment will be furnished by the Wood company with Charles Wood, professor of oratory in Booker T. Washington's school at Tuskegee, Ala. Mr. Wood is the young colored man who carried off the oratorical honors at Beloit college a few years ago and won second place in the United States collegiate contest.

On Friday evening, Feb. 24, there will be a moving picture entertainment and the course will close Friday evening, March 7, with a concert by Claudius's band. The contract for this last attraction is not closed yet but the negotiations are well under way.

It will be noticed that all the entertainments are booked for Friday evenings and that they combine the elements of pleasure and education in a manner that will be attractive to the young people of the schools. The object of this lecture course is not the same as that of the other two courses and is not to be carried on in competition with them. This course is essentially to provide pure, wholesome amusement and entertaining instruction for the pupils of the schools and for their parents. The greatest of care has been used in selecting the attractions, each one of which serves an object. They are all of the highest grade and will be of especial value to the young people. Being given Friday evening, the young people can attend without interfering with their studies. This course of entertainments is in no way a money-making venture but is purely educational in its purposes.

Eruptions

Dry, moist, scaly tetter, all forms of eczema or salt rheum, pimples and other cutaneous eruptions proceed from humors, either inherited, or acquired through defective digestion and assimilation.

To treat these eruptions with drying medicines is dangerous.

The thing to do is to help the system discharge the humors, and to strengthen it against their return.

Hood's Sarsaparilla permanently cured J. G. Hines, Franks, Ill., of eczema, from which he had suffered for some time; and Miss Alvina Wolter, Box 212, Algona, Wis., of pimples on her face and back and chafed skin on her body, by which she had been greatly troubled. There are more testimonials in favor of this great medicine than can be published.

Hood's Sarsaparilla

Promises to cure and keeps the promise. No longer put off treatment. Buy a bottle of Hood's today.

Our New Showings Winter Garments

ARE ATTRACTING WELL MERITED ATTENTION

For 30 days we have been showing the proper new things in automobile cloaks and jackets. The half fitted backs seem to strike the popular fancy. The castor and light tan shades are much favored, although oxfords and all black are receiving their share of attention. Red and brown meet with fair request, especially red for misses.

Three Quarter Lengths

are just now having the call. Thus far we have sold about 50 garments, enough to show the trend of the trade toward particular style. At \$10, \$12, \$16 we are showing garments that hold their own in the face of the strongest competition.

Nobby Jackets

in red Kersey, oxford and black chevots, stitched and trimmed. Exceptional values at 10, 12, \$15.

Capes in long....

lengths are in strong demand; reds and tans are very stylish for evening wear. Large line of blacks. Have capes in plain fur trimmed, fur lined, &c. Our variety is great. Great plush capes for the money, short and long, plain or trimmed.

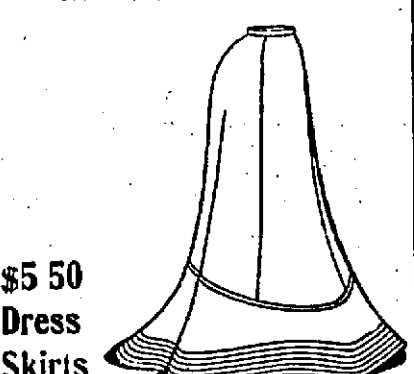

Full length garments being more extreme, will probably not have as general a sale as other styles, but no doubt quite a number will be worn. We show them.

Don't Get Married

That is, do not feel that you have got to get married to a certain length garment whether it is becoming to you or not. Every woman cannot wear the same style. We aim to carry variety large enough so that it will be no trouble to find a suitable garment here.

Walking Skirts

Rack after rack of them. Look our stock over, then look around a little, you'll notice who leads.

\$5 50 Dress Skirts

Black, plain and pebbled chevots, all sizes, all lengths, nicely trimmed with black satin bands, some with double graduated flounce; cannot be matched elsewhere.

Here can be found the most complete stock of skirts outside of the large cities. Also have walking skirts in all sizes for misses, in gray and brown meltons, lengths 30, 31, 32, 33 and 34 inches, stitched bottoms, patent lace placket, beautifully made at \$3.50 and \$4.50.

The News From County Towns.

MILTON.
Milton, Oct. 1.—The quarterly meeting and ministerial conference of the Seventh Day Baptist churches of Southern Wisconsin and Chicago was in session here from Friday to Sunday evening, with a large attendance. The theme for most of the program was along the line of educational topics. Sermons were preached by Rev. G. J. Crandall, Milton Junction; Rev. R. B. Tolbert, West Hallock Ill.; Rev. M. B. Kelly, Chicago, and Mrs. M. G. Townsend.

Whitewater people objected to the bills put up here for the recent football game because the visitors were advertised as the Normal school team instead of the second eleven. As six of the men in that game played on the first eleven at Whitewater Saturday against the Sacred Hearts of Watertown, the kick of Whitewater seems to be slightly out of place and an evidence that you must not place implicit confidence in what you hear, see or are told.

Thos. Griggs of Spencer, Ia., is visiting old time Milton friends this week.

The Rock County W. C. T. U. will hold their annual convention in the Congregational church at Milton Oct. 9-10. It is expected that there will be a medal contest on Wednesday evening and a lecture by Miss Belle Kearney of Mississippi, Thursday evening. Admission free. Collection will be taken. The public are invited to be present at any or all of the sessions. Convention opens at 2 o'clock p. m., Wednesday, Oct. 9.

The board of supervisors are having a large cess pool constructed at the northwest corner of the park for the purpose of ridding the highway of surface water, that at certain seasons of the year make the highway impassable. A needed and wise improvement.

Col. W. N. Burdick and wife, E. E. Burdick and wife, H. C. Severance and family and Chas. Haskins and family left today for their new homes at Gentry, Ark.

Prof. Edwin Shaw went to Milwaukee Friday to attend a meeting of the state Y. P. S. C. E. evangelistic committee.

The Whitewater Register says: "The Normal school eleven went to Milton on Wednesday and routed the college eleven there to the tune of 6 to 0. Rees, 'Gordie' Johnson, the 'Green' Brothers, Rootes and Will Akin played a star game. Akin as a captain, handled the team with excellent judgment. The Milton team will prove a strong team before the season closes. Whitney is sick, so 'Gordie' Johnson will be seen at left end in his place."

Dr. W. H. Palmer of Janesville was in town Friday to see James Vincent. Mrs. George Kelly of Minneapolis is visiting Milton relatives.

Mrs. H. W. Randolph did not return as expected, but will be home this week.

Sidney Green of Philadelphia, is making his mother, Mrs. J. I. Mack, a visit.

Geo. W. Algard of Oregon was in town Saturday.

Mrs. Myron Clarke of Berlin, and Miss Maud Green of Janesville, are visiting Mr. and Mrs. C. H. Goodrich.

Miss Mable Woodman of Janesville has been the guest of Miss Hansen recently.

Mr. and Mrs. Henry Koch, of Fairdale, Ill., are visiting Mr. and Mrs. J. C. Goodrich.

Rev. Mr. Schneider of Ft. Atkinson preached at the M. E. church Sunday morning.

Dr. J. M. Palmer and wife returned from their visit at the Pan-American Saturday. After a brief visit with Milton relatives they will go to their home at Gray's Lake, Ill.

Chas. Ferris and wife of Fort Atkinson called on friends in Milton Sunday.

George Warren and wife of Janesville were here Sunday.

Rev. T. W. North has for his theme

Sunday evening at the M. E. church: "The Young Man as a Man." Mr. and Mrs. Oliver Davis of Nortonville, Kan., were the guests of Mr. and Mrs. A. J. Wells last week, while enroute home from Duluth. Supt. Tarone was here on official business Thursday.

Mr. Sing of Canada, is the guest of Mr. and Mrs. David Walsh.

ROCK RIVER.
Rock River, Sept. 30.—Several from here attended church services at Milton Junction Saturday and Sunday.

Mr. Elmer Vincent and wife and Harry Swader and wife attended the Jefferson county fair Wednesday. M. A. Rose arrived home from the east last Monday.

Ed. Brightman is visiting relatives at Buffalo, N. Y.

Several of our young people began school at Milton Junction Monday.

Frank Doran visited old friends on the River road Saturday.

The necktie social which was postponed last week will be held Thursday evening, next, Oct. 3rd, at the home of Mr. and Mrs. Elmer Vincent. A cordial invitation is extended to all.

Mr. Ira Bond and family expect to start Tuesday for their new home in Gentry, Ark. The best wishes of their many friends go with them.

RISKS
Are run by every woman who has household cares. It is so easy just to run out of the warm house into the fresh air, to pin a piece of lace to the clothes line. It is also easy to take cold in doing so. Then perhaps comes suppression and kindred evils. Whenever there is any disturbance of the normal womanly function Dr. Pierce's Favorite Prescription may be relied upon to re-establish perfect health. It is strictly a temperance medicine, containing no alcohol or whisky, neither opium, cocaine nor other narcotic.

"Several years ago I suffered severely from female weakness, prolapsus and menorrhagia, and used 'Favorite Prescription' with splendid effect," writes Fannie Shelton, of Washington, Iowa. "Glad I have not needed it for a few years past but if I should have a return of the old trouble would surely try 'Favorite Prescription.' I have recommended it to a number of my lady friends. I always tell them to try a bottle and if they are not benefited by it I will pay for the medicine. In every case they have spoken in praise of it."

Sick women are invited to consult Dr. Pierce by letter free. All correspondence strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well.

Mrs. L. A. Harris, a Prominent Member of a Chicago Woman's Political Club, tells how Ovarian Troubles may be Cured without a Surgical Operation. She says:

"Doctors have a perfect craze for operations. The minute there is any trouble, nothing but an operation will do them; one hundred dollars and costs, and included in the costs are pain, and agony, and often death."

"I suffered for eight years with ovarian troubles; spent hundreds of dollars for relief, until two doctors agreed that an operation was my only chance of life. My sister had been using Lydia E. Pinkham's Vegetable Compound for her troubles, and been cured, and she strongly urged me to let the doctors go and try the Compound. I did so as a last resort; used it faithfully with the Sensitive Wash for five months, and was rejoiced to find that my troubles were over and my health restored. If women would only try Lydia E. Pinkham's Vegetable Compound first, fewer surgical operations would occur."

—MRS. L. A. HARRIS, 278 East 81st St., Chicago, Ill.

Every woman in the country ought to know about

Mother's Friend

Those who do know about it wonder how they ever got along without it. It has robbed childbirth of its terrors for many a young wife. It has preserved her girlish figure and saved her much suffering. It is an external liniment and carries with it therefore, absolutely no danger of upsetting the system as drugs taken internally are apt to do. It is to be rubbed into the abdomen to soften and strengthen the muscles which are to bear the strain. This means much less pain. It also prevents morning sickness and all of the other discomforts of pregnancy.

A druggist of Macon, Ga., says: "I have sold a large quantity of Mother's Friend and have never known an instance where it has failed to produce the good results claimed for it."

A prominent lady of Lambert, Ark., writes: "With my first six children I was in labor from 24 to 30 hours. After using Mother's Friend, my seventh was born in 4 hours."

WISCONSIN WEATHER FORECAST
Partly cloudy tonight; fair and cooler Wednesday.

UNCLE ISAAC AND THE PUBLIC.

The Journal reprints today some more pleasant comments on the generous gift to Marinette by Mr. Stephenson for a library. Your Uncle Ike may some day be convinced that The Journal was his true friend when it counseled him not to seek public favor by trusting his money to men who do not hesitate in business at criminality to invest in newspapers which devote themselves to virulent attacks on men and policies. Such support, personal and partisan, and bought at that, is an incubance that he could dispose of without delay. But here he has done a good and right thing and he receives a good word from all kinds of papers and all sources of public opinion. He has done such things before with like results. He will never thrive in public regard on a purchased press and partisan bitterness. There is a wider and nobler approach to the good opinion of men.—Milwaukee Journal.

Mr. Stephenson will discover, as will also Mr. La Follette, that the expressions of a personal organ, never carry much weight, because they lack the voluntary, spontaneous touch of honesty and good will, that inspires public sentiment, and prompts public utterances.

The newspaper is never the organ of an individual. When it prostitutes its columns to the defense or support of any man at the expense of popular sentiment, or public welfare, suspicion is aroused, and when the motive is revealed, financial, or other obligations equally binding, come to the surface.

The press of Wisconsin does not belong to the "organ" class. It compares favorably in point of intelligence and ability, with the press of neighboring states. While it is partisan, to the extent of being allied with the two great political parties that control state and national government, yet it has shown a disposition to be fair, and in treating questions of public interest, measures and not men are considered.

When the primary law was under discussion last winter, the issue was state-wide and of full significance. The man who evolved the scheme and prompted it at the expense of all other public questions, was a state official, honored by the highest office within the gift of the people. His name was so closely identified with the measure, that he had espoused as a hobby, that any attack on the measure was construed as personal, and the press was unjustly accused of descending to the level of personal abuse.

It was perfectly natural for men, both in the legislature and throughout the state, to take sides on this question, and it was just as natural for a majority of the legislative body, to decide with a majority of the people, that the measure was erratic and dangerous.

This decision, with all the discussion that resulted, led to the unfortunate widening of the breach, that now confronts the party in the state. The people are not responsible for these conditions; neither is the press.

For some reason, best known to himself, Mr. Stephenson is unnaturally allied with a measure in which he has no confidence, and forsaking his life long conservative associates, attempts the role of a leading exponent of a populist heresy. He soon discovered, as did the governor, that the conservative press as well as the conservative people, were not with him, and having the means at hand, "organs" were established in various localities to exploit the scheme.

The good name that Mr. Stephenson has long enjoyed as a liberal, public spirited citizen, has lost nothing of its lustre, and this is equally true of the governor. The commendable qualities of personal character are recognized by the press of the state. But the judgment of these gentlemen is questioned and criticised, not only by the press, but by public sentiment that the press seldom fails to reflect.

Governor La Follette, as well as Mr. Stephenson, possess many strong traits of character, that the people admire, and the press of the state recognize these elements of true worth and ability, while it will not be a party to supporting or exploiting theories that possess so many elements of danger to the welfare of the state.

ply, and as a result, the market has been flooded with new industrial enterprises that gave promise of large returns on paper, and the irrepressible promoter, has found a profitable field of operation.

The great steel combine, the largest enterprise on record, stimulated all sorts of speculative ventures, and almost every industry, caught the spirit of expansion, and where combinations were not effected, stocks were watered, and the dividend paying capacity, naturally reduced.

To this was added the mining stock venture, the Texas oil fever and a host of other phantoms, that had nothing back of them but a prospectus, and a hole in the ground, or perhaps a stake to indicate the location of a hole some time in the uncertain future.

Millions of money has been invested in this class of stocks, on the strength of promised dividends, that the year is not likely to fulfill. This is no fault of the year, and is no argument against the prosperity of the country, but it evidences a lack of conservative judgment in making investments that were unwise, and that in ordinary times would not be considered.

When a man invests his money in industrial stocks in his home town where he is acquainted with the management, he is reasonably certain of a profitable investment if the concern is making money, although he may be a small stockholder. But conditions are changed when he enters the market, and seeks investments with hundreds of other men. From a small trader, he becomes a speculator, and while he may receive a certificate of stock, artistic in design, and richly embellished, he must not be disappointed if it proves in the end to be simply a reminder of speculative folly.

When the year closes there will be a larger class of these disappointed small stockholders than at any time in former history, because money has been so plenty, and the spirit of speculation very naturally developed. The safe rule to adopt, is to let industrial stocks alone, unless well acquainted with the history and management.

LIVE STOCK ASSOCIATION.

The National Live Stock Association, with headquarters at Denver, Colo., has arranged for a meeting in Chicago December 7th, the object of which is stated in another part of this paper.

Wisconsin should be well represented. The stock industry was never more important than at the present time, and if new legislation is needed it can be readily obtained by united action.

The progress of the age is so rapid that intelligence is demanded in every department. The National Live Stock Association possesses intelligence, backed by energy that means success. Every western state is especially interested in this movement, and Wisconsin should express her interest by liberal support.

MAY THE BEST BOAT WIN.
The international yacht race now going on, off Sandy Hook, is exciting lively interest on both sides of the water. The series of races will doubtless decide, whether Sir Thomas Lipton will continue to spend money freely for this class of sports. Should the Shamrock be defeated, Mr. Lipton will hardly feel warranted in making a third venture. Whatever may be the result, the contest, while spirited, is most friendly, and the prevailing sentiment is, "May the best boat win."

The little city of Spring Valley, Ill., with a population of 7,000, is said to have 500 anarchists, and supports one of the rankest publications in the country. Spring Valley will never find a better opportunity to reform, or more willing hearts to lend a hand, if necessary. The nest is said to be Italian. Raise a fund and send them home.

Coxey, of tramp army fame, discovered two years ago that the best way to influence legislation, was to "keep off the grass" and go to work. He is now a manufacturer, making money and contented. Mr. Bryan has made the same discovery. If he stays by the case as well as Coxey is doing, it will be a great relief to democracy.

Editor Noyce of the Marinette Eagle, is enjoying the pleasure of an "organ" bombardment at short range. It is safe to say that he will survive the shock, and when the smoke clears away there will be more "Eagles" than "Stars" in that neck of the woods.

congress convenes. The "organs" that are so much exercised over the senator's movements, will be able to keep an eye on him at short range.

Gustav Kusterman, the new member of the state board of control, has the reputation of being an intelligent and energetic business man. He has been prominent in Brown county politics, and will be expected to hold the county for primary law reform.

John G. Woolley's explanation of his radical utterances, may satisfy Mr. Woolley, and possibly a few of his political followers, but public opinion has fixed the seal of disapproval, and life will be too short for Mr. Woolley to outlive the disgrace.

If hindsight was as good as foresight men would think twice before they spoke, and then they wouldn't speak. What the world needs is more thought and less erratic talk.

PRESS COMMENT.

Hudson Star-Times: These are days when some of the vindictive men who persecuted former Governor Scofield, to the very platform of the renominating convention should do sober, reflective thinking. How they, with ghoul's glee, poured the worm-word, and the gall into his sad soul while he carried that last sorrow for a dying son. It is to be hoped that factional hate will never again be forced to such an unholly pass in this or any other state.

Stoughton Hub: Somebody smashed the Spanish fleet at Santiago, when Sampson was a dozen miles away. Schley was in command, and if he didn't do it, who did?

Marinette Eagle: Admiral Schley received orders from the navy department which he did not obey. No amount of after brilliancy can discount an act of disobedience to higher authority during war time. The admiral must present a satisfactory excuse or he will not continue to be the people's favorite.

La Crosse Republican-Leader: The Missouri judge who declared that "the man who tries to teach the laborer that the government is at fault because one man is a laborer and the other a capitalist, is a criminal fool, little better than an anarchist," should have a statue of some sort.

Oshkosh Northwestern: The question has been asked whether Mr. Bryan is running his paper with the proceeds of his farm, or running his farm with the proceeds of his paper, or running both with the proceeds of his talk tours? We will wager a cow against an old straw hat that he manages to make all three of them pay.

Madison Democrat: All looks favorable for the nomination of Roosevelt in 1904. Only Roosevelt can beat him. He can cement his party into solid support of himself—or he can bring on a stalwart-halfbreed coalition such as now makes political life unhappy in Wisconsin.

Evening Wisconsin: When Shaffer called the steel strike, his followers said, "He has a great head!" Now they say, "He had the big head!" To a foreigner both phrases look alike; but they don't mean precisely the same thing.

Green Bay Gazette: Admiral Sampson will not be allowed counsel at the Schley court of inquiry. Evidently Admiral Dewey proposes that the proceedings of the court shall be an investigation of the accused and not a persecution. The persecution has already gone far enough.

Racine Journal: It is very possible the open letters to Senator Whitehead are falling on exceedingly stony ground. John M. Whitehead is a very live man and possessed of requirements that make him a real force among the people.

Appleton Post: It is just possible that there wouldn't be as much of a schism in the republican party in Wisconsin as there is if the Milwaukee Free Press were not devoting the much greater part of its editorial space to that subject.

Fond du Lac Reporter: Because he was never mustered out of the service as a soldier, during the civil war, Captain Lockwood, of South Dakota, has presented a bill of \$22,266 to the government for services. If this bill is valid it will be an expensive oversight on the part of the mustering out officer.

Madison Journal: The Madisonian is hardly envied its offensive task of belittling its fellow townsman, John C. Spooner, but that's the conception of politics in 7x9 brain boxes.

Mandi's Weekly: Another prolonged legislative session is a foregone conclusion since the return of Senator McGillivray is probable.

TOTAL VALUATION OF ALL THE TOWNS

The 1901 Valuation is Found To Be Double in Almost Every Instance Over That of 1900.

County Clerk F. P. Starr has just completed the abstract of assessment of the different towns, cities and villages in Rock county as compiled from the reports of the several towns, village and city clerks.

The assessment in 1900 was made under the old law and at about a 50 per cent valuation, although the city of Beloit in compliance with a request from the state tax commission raised their valuation to about 75 per cent of the real value. The total assessed valuation of all property in the county last year was \$23,769,807 and in 1901 under a full assessed valuation \$42,372,593, or almost double what it was in 1900.

It may be of interest to some to compare the total valuations in the towns of the county under the old system of valuation and under the new.

The village of Orfordville which was this year assessed separately was last year assessed as a part of the town of Spring Valley.

Below is a list of the total valuation of all the towns, cities and villages in the county. It will be noticed in almost every instance the 1901 valuation is almost double that of 1900:

Towns, Cities, Villages.	1900.	1901.

PRESENTED BANNER TO ADAMS SCHOOL

Pretty Prize-Giving Ceremony on the Second Ward School Grounds This Afternoon.

There was a pretty ceremony at the Adams school this afternoon at 3:30 o'clock when the banner won by the school for the greatest improvement in the school grounds was formally presented to the school, and the accompanying cash prize of \$10 was bestowed on the janitor. R. P. Young, the teachers and the pupils of the school, together with some of the parents, the members of the awarding committee and Supt. H. C. Buell, assembled out-of-doors on the school grounds at the appointed hour in full sight of the decorations of plants and vines which had won the prize, a handsome one of blue satin with gold fringe and lettering.

The presentation of the banner and of the cash prize was very happily made by A. E. Matheson, one of the members of the awarding committee. His remarks were brief but very interesting. He complimented the teachers and the scholars and janitor very highly on the work which had been done this year, and urged them to continue in the good work which they had begun so well. The banner should encourage them to better work in the future.

The banner was accepted by Master Paul Porter, who represented the Adams school as spokesman. His response to Mr. Matheson's presentation was excellently worded and was given in a clear, manly manner which was very pleasing. The members of the Adams school are very much elated over receiving the banner especially as it is the almost universal opinion that they won the banner beyond all doubt. Teachers, scholars and janitor are all entitled to hearty congratulations.

Tickets for the Peoples' Lecture Course are meeting with an unusually large sale and the talent on the course this year certainly warrants it.

ANOTHER FLUKE IN RACE TODAY

Wind is Such Boats Cannot Finish Within the Time Limit.

PROGRESS IS SLOW

Boats Seem To Be Evenly Matched in Breeze They Are Working With.

TIME IS AN OBJECT

Highland, N. J., Oct. 1.—The Shamrock rounded the first mark at 2:40 and the Columbia at 2:43:43. As the wind is not blowing over six knots the boats will not finish within the time limit. The race will be rescheduled next Thursday.

Highlands, N. J., Oct. 1.—A twelve knot breeze blew this morning to make glad the hearts of Lipton and his crew. It was a Shamrock breeze and the challenger's admirers saw in it victory for Lipton's boat in today's race. The sea was smooth as glass. About nine o'clock the boats took to the water for the various points. The betting is light on the race. The Columbia is in favor at ten to eight. The betting is five to three that she will successfully defend the cup.

Excites Keenest Interest. This will be the first time the two boats have been on a course which is designed to search out every virtue or shortcoming of a sailing yacht, for the triangular course is one which brings out the all-around paces of a racer, beating to windward, reaching and running.

This reason alone would be sufficient to excite the keenest interest in today's proceedings. But there are others. The close contest of Saturday is still remembered with a thrill by the many thousands who witnessed that hard-fought battle for the cup, and there are many who believe that today's event will prove equally exciting.

From a Shamrock point of view much depends upon the weather. "What we want," said Sir Thomas early this morning, "is a west to southwest wind, with a slight sea. Let the breeze be as strong as it may be, anything less than a gale and more than ten knots. That is Shamrock weather, and if Providence sends it, we will win."

Americans Expect to Win. And every Columbia adherent who read of that hope of Lipton's felt a glow of pride in the thought that his own favorite is more independent of the vagaries of meteorological conditions, and it will take a westerly wind with the same welcome that she gave to the easterly breeze of Saturday. One race, as everybody knows, is already secure, and there are many who believe while Shamrock II. is the most dangerous challenger that ever crossed the ocean on a cup-hunting expedition that at least two more of the series will be placed to the Columbia's credit, thus insuring the retention of the trophy, the series being the best three out of five events.

Wind Began to Die Out. Just before the starting gun was fired, the wind began to die away, raising the hopes of Columbia's followers. The start was made at eleven, the Columbia being the first to cross the line.

The first leg of the triangle was a beat to windward of ten miles. When the preparatory gun was fired there was little wind out to sea and the yachts moved sluggishly. The fight for position as in the previous contests was exciting but the Columbia could not be caught napping and got the weather position. In crossing the line the Shamrock was only a few seconds behind the Columbia. The race was only a few minutes old when

it began to look as if the Columbia was being favored by slants of wind that the Shamrock did not catch.

Another Fluke Expected. The wind was running about five knots and the boats did not appear to be making fast time.

At eleven fifteen the wind had flunked out almost entirely and another fluke is looked for. At that time the boats stood out to sea, the Columbia being easily in the lead.

Wind Was Very Light.

Many of those along the shore, believing it would be no contest returned home. The wind began to favor first one and then the other. At times the wind was so light the Shamrock did not move, though once she caught a good slant and crawled up on the Columbia.

The official starting time was: Columbia 11:00:10. Shamrock II. 11:00:22.

Columbia Increases Lead.

At 11:45 it looked as if the Shamrock had pulled up quite a bit on the Columbia. Capt. Sycamore seemed to hold his boat so as to get the best advantage of the breeze. The Columbia did not appear to hold the wind as well as the Challenger. Shortly before noon the Shamrock again became practically becalmed. At noon the Columbia had increased her lead, having caught a cool puff of wind.

At 12:41 the boats had covered five miles or half the distance to the first leg.

Shamrock in the Lead.

At one thirty the breeze began to pick up. The Shamrock had cut down the Columbia's lead and the fight to round the first mark then resolved itself into a pretty struggle. At one twenty the Shamrock had taken the lead and seemed to be going fast.

STATE FAIR LOSS REACHES \$12,000

This is the Excess of the Disbursements Over the Receipts of the Show.

Madison, Wis., Oct. 1.—(Special)—The recent state fair resulted in an actual financial loss of about \$12,000, this being the excess of the disbursements over the receipts at the fair. The aid received from the state, however, will amount to about \$6,000, which reduces the loss, nevertheless, to about \$6,000. Secretary True has not yet completed the detailed figures. The board still has \$6,000 to \$8,000 on hand.

BOERS CAPTURE A BRITISH CONVOY

London, Oct. 1.—A Reuter dispatch says that a large British convoy was captured and wagons burned six miles from Melmoth, Zululand. Kitchener reports as follows: The Boers in force under Delany and Kemp attacked Kekewich at Modewill yesterday but were driven off."

CAPT. ACHTERBERG CONCLUDES TO QUIT

Resigns from Company I, W. N. G. in Order to Better Attend to His Private Business.

Captain Charles F. Achterberg of Company I, W. N. G., has forwarded his resignation to the adjutant general as captain of the company, to take effect at once.

Captain Achterberg feels that he has done all that he is able to in the way of bringing the company up to its present standard and asks on account of business matters that he be relieved of the command. Captain Achterberg sent in his resignation to headquarters last spring but was prevailed upon to continue in command of the company until after the annual encampment at that time and now that the encampment has passed has again asked to be relieved.

The feeling between the captain and his company is of the best and it will be a source of regret to them to have him leave.

CONGREGATIONALISTS IN SESSION; HOLD CONVENTION IN MILWAUKEE

About 250 Pastors and 150 Laymen Representing 20,000 Members in the State Are Gathered.

Milwaukee, Wis., Oct. 1.—The results of sixty-one years of Congregationalism in Wisconsin can be seen in the personnel of the convention which opened a three days' session today in Plymouth church. About 250 pastors and 150 laymen make up the convention. The membership of the churches affiliated with the body has grown to 20,000.

The convention was called to order at 10 o'clock this morning by the Rev. E. G. Updike of Madison, the moderator of last year's convention. The registrar, the Rev. H. A. Miner of Madison presented his report.

The subject of the afternoon meeting is "Our Foreign-born Population." Papers by the Rev. R. C. Hughes, president of Ripon college, and the Rev. H. A. Schaeffer of Cleveland, O., will touch on the possibilities of schools and churches in Americanizing foreigners.

One of the men with a national reputation who will address the convention this evening is the Rev. W. S. Ames of the North China mission, whose views on settling with Chinese for atrocities committed were

PROSPEROUS YEAR FOR THE STATE; EVERY WARRANT WAS REDEEMED

According to the Balance Sheet Last Night the Various Funds in the State Treasury Amounted to \$949,097.76—State Department Increase.

Madison, Wis., Oct. 1.—This was the end of the fiscal year for all departments of the state government, and on the whole the year was one of the most prosperous experienced by the commonwealth. Departments that issue annual reports, and they are few because the statutes provide principally for biennial reports, will require several months in which to make the necessary compilations.

For the first time in many years every warrant drawn on the state treasury has been redeemed. Frequently persons holding state warrants do not present them for payment until long after the date of their issue. This month, however, all warrants were turned in, so that the balance sheet shows just how much money the state has. According to this balance sheet the various funds contained at the close of business this morning is just \$949,097.76.

The general fund, which is used to meet the ordinary expenses of gov-

GEORGE PARMLEY IS PLEASED IN CUBA

Rock County Man Spent Some Time in the Islands Raising Vegetables for the Market.

George Parmley, formerly a resident of the town of Center, has returned to this city after a two years' sojourn in Cuba, a short distance from Havana. Mr. Parmley is very much pleased with Cuba as a place to live and thinks the climate far better than that of California. During the summer months the thermometer seldom went higher than 92, and was usually about 87.

During the time he was in Cuba he ran a large truck garden and raised vegetables for the Havana market. The growing time in Cuba is from October 1st to May. Considerable tobacco is raised near Havana and about three crops a year are harvested from one setting; two crops are cured out and the last one is cut for seed. When the first crop is cut the second crop comes right on from the same stalk and the third in the same manner.

From fifteen to twenty-five thousand plants are set out to the acre. During the last summer in Havana the sanitary corps have been waging war against the mosquitoes, and as a result there has not been a case of yellow fever in the city since last May. It has been clearly established that a certain kind of mosquito carries yellow fever. He left Cuba on his way home September 3rd and will remain here as his wife is not in love with the manners and customs of the country.

Mr. Parmley fears that there will be serious trouble in Cuba when the United States troops are withdrawn as three of four different factions are trying to get control of the government. The past summer in Wisconsin was hotter than any he encountered while living in Cuba.

H. KIRK WHITE SUES MRS. PHILLIPS

Interesting Case in Justice Reeder's Court—Judgment Given in Favor of Plaintiff.

The case of H. Kirk White against Mrs. Fannie Phillips, to recover the price of some drugs and medicines furnished her, has been on trial in Justice Reeder's court.

The bill amounted to \$7.54, but rather than pay it Mrs. Phillips declined to have a law suit. The outcome of the suit was that he justly found for the plaintiff and assessed his damages at \$7.54 with \$1.13 interest and \$12.91 costs or in all \$21.61 which the defendant paid.

During the progress of the trial a number of reputable citizens and business men swore they would not believe Mrs. Phillips under oath. Although she brought some witnesses that said they would believe her, the justice concluded she owed the bill and decided against her. S. D. Tallman appeared for the plaintiff and Edward O. Peterson for the defendant.

NINE HOURS LABOR NOW IN FORCE

Carpenters Commenced Yesterday—Effects About Two Hundred Men in Janesville.

The union carpenters of Janesville are now working under a nine-hour schedule with the same pay as formerly. The new rule went into effect today and about two hundred men will cease work tonight when the five o'clock whistle blows, instead of at six as heretofore. It is reported that on and after January 1, 1902 the painters will demand a nine-hour schedule instead of ten as at present.

Next year all contractors will have to figure all work on a nine-hour basis as about all the classes of workmen now have a nine-hour schedule. Mr. and Mrs. Fred M. Blakely are the proud parents of a baby girl which arrived this morning to brighten the family circle.

ROCK COUNTY HORSES

Some of Them Exhibited at the Dane County Fair Last Week Bring Fancy Prices.

Through the agency of Anthony Dixon, the well-known horse-trainer, a team of fancy carriage horses belonging to M. D. Owen of Footville, were sold to Joseph Kaiser of Madison, last Saturday. The consideration was \$600 and Mr. Kaiser became interested in the team at the Dane county fair which was held in Madison last week, the horses being on exhibition. These same horses took two first prizes at the Beloit interstate fair recently for the best single and double.

Another Rock county horse, Nellie Gray, owned by Jerome Shimeal, of Shopleer, also won distinction at the Dane county fair. She captured first money in a special race called the Janesville special in which four Rock county horses competed for a \$100 purse. Alice, owned by H. S. Ames, won second money and Nellie D., owned by Anthony Dixon, third. Charles Britton, the property of W. Atwood of Brodhead, finished fourth. The best time was 2:35.

Selects Three Rowing Crews.

Milwaukee, Wis., Oct. 1.—Coach Andrew O'Dea of Wisconsin University has organized three crews, consisting of a sophomore law crew, and senior and junior crew; with the object of holding races before real cold weather sets in. He hopes in this way to develop material for next spring's crews.

PROF. G. W. BRACE SERIOUSLY HURT

Second Finger of His Right Hand Badly Cut by Knife on Planing Machine.

Prof. George W. Brace, instructor in the high school manual training department, had a painful accident this morning which will necessitate a careful use of his right hand for some time. The second finger on his right hand was badly cut by the knife on the planing machine and a portion of the nail and flesh was torn off. It was a narrow escape from a more serious injury.

The accident occurred about ten o'clock while Prof. Brace was at work with one of his classes. He does not allow the boys to use the planers and he was running a small stick through one of the machines. A knot in the end of the stick caught against the knife and the stick was jerked backward from under Prof. Brace's hand and finger across the room. Prof. Brace's finger was drawn against the knife and badly cut. He bound the finger with rubber bands to stop the flow of blood. Dr. Joe Whiting was sent for and found the injury less serious than had been supposed. The injured finger was dressed and no serious results will follow. It is the first accident of any kind which Prof. Brace has ever had in his twelve years' experience with machinery.

CALL THE SPORT CRUEL

Auto Bull Fight at Bayonne Arouses French Humane Society.

Paris, Oct. 1.—The French Society for the Prevention of Cruelty to Animals, which so often has successfully opposed bull fights in France during past years, is now giving up its loins against a repetition of yesterday's cruel attack at Bayonne, where the bull was attacked by matadors riding in a modern twelve-horse-power automobile.

M. Deutsch, president of the Aero club, presided at the bull fight. The use of an automobile for such a purpose becomes the subject of harsh comment in Paris this morning, since sportsmen agree that an automobile does not add to the sportsmanlike element of the conflict and merely panders to the morbidly cruel taste of the spectators.

On the other hand, partisans of the bull-fighters declare that the innovation of the automobile is an excellent thing, since it automobilists grow interested in the institution bull-fighting will surely become a favorite sport with many influential persons in France.

FARMERS MEET AT SIOUX FALLS; NATIONAL CONGRESS BEGAN TODAY

Twenty-First Annual Convention is in Session—Every Agricultural State in Union Is Represented.

Sioux Falls, S. D., Oct. 1.—The twenty-first annual meeting of the Farmers' National congress met here today for a convention lasting four days. Many delegates arrived this morning promising a good attendance during the sessions of the congress. When all the delegates arrive practically every state in the union will be represented. The interior of the Auditorium where the session is held is artistically decorated with the various grains, grasses and other products of South Dakota.

At ten o'clock the congress was called to order by President R. F. Candage of Brookline, Mass. The Rev. J. N. Hutchinson, pastor of the First Presbyterian church of Sioux Falls delivered the invocation. Chas. N. Herrell, governor of South Dakota, delivered an address of welcome on behalf of the people of the state. H. Keith of Sioux Falls welcomed the delegates to the city, and responses to the address of welcome were made by Governor E. P. Savage of Nebraska, ex-Governor W. D. Hoard of Wisconsin, J. H. Worat, president of the North Dakota Agricultural college, B. F. Clayton of Iowa and others.

FIFTEEN MEN ARE ENTOMBED

Many Miners Probably Killed in an Explosion Near Victoria.

NO HOPE FOR THEM

Are Helpless Underneath the Earth's Surface Amid Smoke and Flames.

THEY CAN GET NO AIR

Victoria, Oct. 1.—Fire is still raging in the Extension mines and there is absolutely no hope for the fifteen men entombed. When the fire was discovered all the men in the mines got out, but fifteen returned to fight the flames. They never came back.

Victoria, B. C., Oct. 1.—Premier Dunsmuir, president of the Wellington Colliery Company, has just received the following dispatch from Alexander Bridon, manager of the extension mines of that company, situated near Ladysmith:

"Fire occurred in No. 2 slope at No. 3 level, which made such headway that in half an hour it was half way up the slope, spreading to the airways and workings of No. 2 and No. 3 mines. I was obliged to stop both of the mines after two explosions. Have lost some men but cannot say how many."

Nanaimo, B. C., Oct. 1.—No. 2 slope at Extension is on fire and dense clouds of black smoke can be seen from here. Full particulars are not obtainable, but a late report says that from eight to fifteen men are in danger, if not lost. It is said that it was impossible to get air to them and that they are probably dead. The fire broke out in the evening. The cause is not yet known. The management has sent for hose and fire apparatus to all points in this vicinity. The miners supposed to be lost are: MacCalum, Reeves, Watson, "Tony," an Italian, name unknown; David Griffiths, Blakely, David Mottishaw and Mike Dolan, and several others are unaccounted for.

FREE EMPLOYMENT BUREAUS PROSPER

Have Found Work for 1842 Persons During the Twelve Weeks of Their Existence.

Madison, Wis., Oct. 1.—(Special)—The free state employment bureaus established by the act of the last legislature at Milwaukee and Superior have found employment for 1,842 persons during the twelve weeks of their existence. The results attained are steadily increasing, the number of positions filled last week numbering 190, while the average for the twelve weeks is about 150. There are more applicants for help than for employment; 240 applications for help and 223 applications for employment were filed last week, while 50 applications for help and 33 applications for positions were unfilled.

During the twelve weeks the bureaus have been in existence 2,622 applications for help and 2,267 applications for positions have been filed, and 1,842 positions filled; 780 applications for help and 425 applications for employment were unfilled during the entire period.

Pronunciation of Roosevelt. Washington, Oct. 1.—The proper pronunciation of the president's family name is not as though it were Roosevelt, but Rose-zvelt. The family is sensitive about such matters. The Roosevelt family is of Dutch origin, and therefore desirous that the family name should be properly enunciated.

Henry S. Sloan came down from Edgerton this morning on legal business.

HEIRESS DIES IN POORHOUSE.

Woman to Whom \$40,000 Is Left Expires While Being Sought.

Wilkesbarre, Pa., Oct. 1.—Rudolph Bock, a bookbinder of Brooklyn, N. Y., died Nov. 27, 1893, leaving an estate of \$40,000. A banking house of New York was named as executor, but could find no relatives of the man until several months ago, when it was learned that a distant relative named Mrs. Christiana Mathias was once a resident of this city. A representative of the banking firm came here to investigate, only to find today that the woman died in the poorhouse last November.

Profited by Greeley's Advice.

In 1869 Governor Orman, of Colorado, then a poor boy, took Horace Greeley's advice and went west to grow up with the country, getting work as a railroad laborer. He rose in the business and has been connected with it for thirty years.

COUNCIL AGREE TO VACATE HIGH ST.

ST. PAUL ROAD WILL NOW PUT UP, NEW DEPOT.

Aldermen Also Passed the Ordinance Granting P. L. Spooner of Madison, a Franchise to Construct and Operate an Electric Road in This City—Other Business Transacted

The common council at its meeting last evening made short work of the question whether or not a portion of High street should be vacated in order that he Chicago, Milwaukee & St. Paul railroad company might build its passenger station. The ordinance vacating all but thirty feet of the street was presented by Alderman Field of the highway committee and given its first and second readings and under a suspension of the rules given its third reading and passed.

They also passed the ordinance granting to P. L. Spooner, his heirs or assigns, the right to construct, maintain and operate an electric railroad in the City of Janesville from the city limits down North Bluff street to North First street, on down to Main street and on Main street to its intersection with East Milwaukee street.

Mayor Richardson presided at the meeting and all the aldermen were present except Alderman Rice. The reading of the minutes was dispensed with and the business of the evening taken up.

A petition from George K. Colling asking that a rebate of \$3 be made him for sidewalk repairs made by the city. He also asked that the assessment on his home at the corner of Wall and Washington streets be reduced. It was assessed at \$1,400. He bought it for \$1,000 and offered it for sale for \$1,200. The petition was referred to the finance committee who were given time to look the matter up.

The report of the assistant street commissioner on sidewalks built by him was presented and placed on file.

A petition from the P. Hohendael, Jr., company asking for an extension of the water mains on McKee boulevard to their factory for fire protection was referred to the fire and water committee. An invitation from Mr. Hohendael to the council to visit the plant and see whether or not the extension was necessary, was accepted.

The judiciary committee to whom was left the matter of purchasing the Fredendall lot on Racine street now occupied by the Third ward voting booth of the 2nd precinct for \$300, reported favorably and recommended the purchase of the same.

The report of the highway committee on the cost of macadamizing Marion, South Franklin, Academy and Pleasant streets and the amount due the contractors was adopted.

The resolution fixing the benefits and damages to the several pieces of property on Marion, Academy, South Franklin and Pleasant streets, and calling for the issuing of bonds to cover the same was adopted.

The finance committee reported favorably on a large batch of bills and the clerk was instructed to draw orders on the treasurer for the same.

The petition of the Chicago, Milwaukee & St. Paul railroad asking that a portion of High street be vacated, was presented by Alderman Field of the highway committee. It stated that the petition was signed by nearly all of the residents of this street and moved that the petition be granted. The ordinance granting the road the right to erect and maintain a passenger station at this point, and to build a partition or shed over the portion of the street not vacated, and to block the crossing not to exceed fifteen minutes with a passenger train was given first and second readings and then passed under a suspension of the rules.

The ordinance giving P. L. Spooner the right to operate an electric road was given its third reading and put upon its passage.

HERE TODAY; GONE TOMORROW

How many pennies and how many dollars have slipped through your fingers—gone, and nothing to show for them? Carelessness, one reason; improvidence, another; rash speculation, another. The only certainty that remains is the certainty you haven't got them. Would you have your pennies and your dollars here today, here tomorrow? A policy in the Aetna Life Insurance Company will safeguard this and best of all will safeguard your family. Harlin E. Cary, Gen'l Agent, New Phone, 222, Suite 415, Hayes Block.

The Janesville Machine company was given permission to place a fire

pump in Center street and to erect a brick building 12x20 and ten feet high for the protection of the pump. They were also given permission to lay pipes in Center street for use in connection with the pump.

James Carroll was given permission to use a portion of Rock street in front of lot 24, S. B. & S. addition for storing building material during the erection of a house.

C. S. Jackman, A. P. Burnham, Victor P. Richardson, W. L. Carle, George G. Sutherland and others were given the right to construct a sewer from the west side of Harrison street down St. Lawrence Place and Park Place to connect with the county sewer at the corner of South First and Bluff streets under the usual conditions.

The city engineer was instructed to prepare a grade for Prospect avenue between Garfield and Milton avenues. A resolution calling for the improvement of North Franklin street was carried.

GLOBE SIGHTS.

As a rule, people are disappointed in compliments; they always expect more.

Learn to accept defeat without considering that every man who opposes you is your enemy.

Women are so governed by style that they cannot carry a watch except when it is fashionable.

When a woman burns the steak she thinks that a flower laid beside it on the plate is apology enough for any man.

It makes no difference what grammatical errors are made in paying a compliment to a man, he will never notice them.

When a guest at a dinner table knows why you should eat this, and why you shouldn't eat that, he or she knows too much to be interesting.—Acheson Globe.

REFLECTIONS OF A BACHELOR.

Life and a desire to live march in inverse ratio.

It is harder to admit that one's self is wrong than that another man is right.

Wives are nurses to their children in their youth and to their husbands in their old age.

The fragrance left by dead flowers can be sweet, but that left by dead love is poison.

Cowards always try to shrive themselves, but there is no self-administered absolution in this world.—New York Press.

WOMAN'S POINT OF VIEW.

Why it is— That the people we care for most are often those we treat the worst?

That a woman should care to wear a serpent even if it be only of gold?

That duty is so seldom arrayed in fashionable disguise?

That no woman ever put on glasses except to rest her eyes?

That the button bursts from your glove always when you are in the greatest hurry.

That it is only one man in a dozen who can wear a belt and get it in just the right place?

That a man hates to be reminded of faults he knows he possesses?—Philadelphia Times.

A NEW DEPARTURE.

A New, Efficient and Convenient Cure for Catarrh.

Of catarrh remedies there is no end, but of catarrh cures, there has always been a scarcity. There are many remedies to relieve, but very few that really cure.

The old practice of snuffing salt water through the nose would often

relieve and the washes, douches, powders and inhalers in common use are very little, if any better than the old fashioned salt water douche.

The use of inhalers, and the applications of salves, washes and powders to the nose and throat to cure catarrh is no more reasonable than to rub the back to cure kidney disease.

Catarrh is just as much a blood disease as kidney trouble or rheumatism and it cannot be cured by local treatment any more than they can be.

To cure catarrh, whether in the head, throat, or stomach an internal antiseptic treatment is necessary to drive the catarrhal poison out of the blood and system, and the new catarrh cure is designed on this plan, and the remarkable success of Stuart's Catarrh Tablets is because being used internally it drives out catarrhal infection through action upon stomach, liver and bowels.

Wm. Zimmerman of St. Joseph, relates an experience with catarrh which is of value to millions of catarrh sufferers everywhere. He says: "I neglected a slight nasal catarrh until it extended to my throat and bronchial tubes and finally even my stomach and liver became affected, but as I was able to keep up and do a day's work I let it run along until my hearing began to fail me and then I realized that I must get rid of catarrh or lose my position as I was clerk and my hearing was absolutely necessary."

"Some of my friends recommended an inhaler, another a catarrh salve, but they were no good in my case, nor was anything else until I heard of Stuart's Catarrh Tablets and bought a package at my drug store. They benefited me from the start, and in less than four months I was completely cured of catarrh although I had suffered nearly all my life from it."

"They are pleasant to take and so much more convenient to use than other catarrh remedies that I feel I cannot say enough in favor of Stuart's Catarrh Tablets."

A little book on cause and cure of catarrh will be mailed free by addressing F. A. Stuart Co., Marshall, Mich., and the tablets are sold by all druggists in the United States and Canada.

Beloit Students Banquet

A number of Beloit college students members of the Beta Theta Pi fraternity came up from Beloit last evening and held a social and banquet at the Hotel Myers.

Mrs. Osborne Sampson acted as chaperon. Those who composed the party were Misses Helen Sedgwick, M. E. Wilder, E. Sherman, Amelia Cowgill, Bessie Saunders and Fannie Rosenblatt, and Messrs. D. C. Plank, J. MacQuade, J. S. Hale, J. W. Wilbur, W. K. Gillett and H. Smith. They started on the return trip to Beloit about eleven o'clock. They were a jolly crowd and all perfect ladies and gentlemen.

Had A Surprise Party.

A number of friends of Mr. and Mrs. Elmer Maine, tendered them a surprise party last evening on the occasion of their twenty-seventh wedding anniversary. Tuckwood's orchestra furnished the music for the evening and all had a glorious time. A fine luncheon was served and enjoyed by all. A number of handsome gifts were made by the friends of the happy couple. Mr. Maine presented his wife with a handsome gold watch and chain.

NEW AUDITORIUM TO IMMEDIATE USE

High School Hall Will Be Thrown Open to Children and Their Parents During Winter.

The new auditorium in the high school building is to be put to immediate use for the benefit of the school children of the city and their parents. During the winter it will be thrown open to them frequently and every effort will be made to make it one of the educational centers in the city and a place where the children and their parents can meet together with pleasure and profit.

As a means to secure this end Supt. H. C. Buell has arranged for a course of lectures and entertainments to be held in the auditorium during the coming winter. The course will open one week from Friday night with an entertainment by the C. W. Best Concert company. This company includes Master Leyton Potter, 14 years old, violinist; Master Harry Aloin Storms, 13 years old and Miss Lilith Storms, 10 years old, readers; Frank Pfunder, 11 years old, soprano; and C. W. Best, pianist and director.

On Friday evening, Nov. 15, Prof. William H. Dudley, who is connected with the university extension lecture bureau of the university of Chicago, will give a lecture on "Birds and Animals" illustrated with colored stereopticon slides. The December entertainment given on Friday evening, December 6, will also be a lecture. It will be given by William Hawley Smith, the author of "The Evolution of Dog," and will be one of his educational lectures which are so exceedingly popular. It will be remembered that the noted author and lecturer appeared here in connection with the summer school a few years ago and that his large audience was delighted with his lecture.

Friday evening, Jan. 31, the entertainment will be furnished by the Wood company with Charles Wood, professor of oratory in Booker T. Washington's school at Tuskegee, Ala. Mr. Wood is the young colored man who carried off the oratorical honors at Beloit college a few years ago and won second place in the United States collegiate contest.

On Friday evening, Feb. 24, there will be a moving picture entertainment and the course will close Friday evening, March 7, with a concert by Claunder's band. The contract for this last attraction is not closed yet but the negotiations are well under way.

It will be noticed that all the entertainments are booked for Friday evenings and that they combine the elements of pleasure and education in a manner that will be attractive to the young people of the schools. The object of this lecture course is not the same as that of the other two courses and is not to be carried on in competition with them. This course is essentially to provide pure, wholesome amusement and entertaining instruction for the pupils of the schools and for their parents. The greatest of care has been used in selecting the attractions, each one of which serves an object. They are all of the highest grade and will be of especial value to the young people. Being given Friday evening, the young people can attend without interfering with their studies. This course of entertainments is in no way a money-making venture but is purely educational in its purposes.

Eruptions

Dry, moist, scaly tetter, all forms of eczema or salt rheum, pimples and other cutaneous eruptions proceed from humors, either inherited, or acquired through defective digestion and assimilation.

To treat these eruptions with drying medicines is dangerous.

The thing to do is to help the system discharge the humors, and to strengthen it against their return.

Hood's Sarsaparilla permanently cured J. G. Hines, Frank, Ill., of eczema, from which he had suffered for some time; and Miss Alvina Wolter, Box 212, Algona, Wis., of pimples on her face and back and chafed skin on her body, by which she had been greatly troubled. There are more testimonials in favor of this great medicine than can be published.

OUR NEW SHOWINGS

IN—

Winter Garments

ARE ATTRACTING WELL MERITED ATTENTION

For 30 days we have been showing the proper new things in automobile cloaks and jackets.

The half fitted backs seem to strike the popular fancy. The castor and light tan shades are much favored, although oxfords and all black are receiving their share of attention.

Red and brown meet with fair request, especially red for misses.

Three Quarter Lengths

are just now having the call. Thus far we have sold about 50 garments, enough to show the trend of the trade toward particular style. At \$10, \$12, \$16 we are showing garments that hold their own in the face of the strongest competition.

Nobby Jackets

in red Kersey, oxford and black chevots, stitched and trimmed. Exceptional values at 10, 12, \$15.

Capes in long... lengths are in strong demand; reds and tans are very stylish for evening wear. Large line of blacks. H a v e capes in plain fur trimmed, fur lined, &c. Our variety is great. Great plush capes for the money, short and long, plain or trimmed.

Full length garments being more extreme, will probably not have as general a sale as other styles, but no doubt quite a number will be worn. We show them.

Don't Get Married

That is, do not feel that you have got to get married to a certain length garment whether it is becoming to you or not. Every woman cannot wear the same style. We aim to carry variety large enough so that it will be no trouble to find a suitable garment here.

Walking Skirts

Rack after rack of them. Look our stock over, then look around a little, you'll notice who leads.

Black, plain and pebbled chevots, all sizes, all lengths, nicely trimmed with black satin bands, some with double graduated flounce; cannot be matched elsewhere.

Here can be found the most complete stock of skirts outside of the large cities. Also have walking skirts in all sizes for misses, in gray and brown meltons, lengths 30, 31, 32, 33 and 34 inches, stitched bottoms, patent lace placket, beautifully made at \$3.50 and \$4.50.

ALL PURE

The proper place to purchase pure liquors is from the man who makes a specialty of them. You buy your coal from the coal dealer because you know that he knows all about coal.—The same reasoning should apply to your whiskey, wines, beer, etc. Impure liquor for family or medicinal purposes is worse than none at all.

We wholesale and retail every kind of good liquor.

The News From County Towns.

MILTON.
Milton, Oct. 1.—The quarterly meeting and ministerial conference of the Seventh Day Baptist churches of Southern Wisconsin and Chicago was in session here from Friday to Sunday evening, with a large attendance. The theme for most of the program was along the line of educational topics. Sermons were preached by Rev. G. J. Crandall, Milton Junction; Rev. R. D. Tolbert, West Hallock Ill.; Rev. M. B. Kelly, Chicago, and Mrs. M. G. Townsend.

Whitewater people objected to the bills put up here for the recent football game because the visitors were advertised as the Normal school team instead of the second eleven. As six of the men in that game played on the first eleven at Whitewater Saturday against the Sacred Hearts, of Watertown, the kick of Whitewater seems to be slightly out of place and an evidence that you must not place implicit confidence in what you hear, see or are told.

Thos. Griggs of Spencer, Ia., is visiting old time Milton friends this week.

The Rock County W. C. T. U. will hold their annual convention in the Congregational church at Milton Oct. 9-10. It is expected that there will be a medal contest on Wednesday evening and a lecture by Miss Belle Kearney of Mississippi, Thursday evening. Admission free. Collection will be taken. The public are invited to be present at any or all of the sessions. Convention opens at 2 o'clock p. m., Wednesday, Oct. 9. The board of supervisors are having a large cess pool constructed at the northwest corner of the park for the purpose of ridding the highway of surface water, that at certain seasons of the year make the highway impassable. A needed and wise improvement.

Col. W. N. Burdick and wife, E. E. Burdick and wife, H. C. Severance and family and Chas. Haskins and family left today for their new homes at Gentry, Ark.

Prof. Edwin Shaw went to Milwaukee Friday to attend a meeting of the state Y. P. S. C. E. evangelistic committee.

The Whitewater Register says: "The Normal school eleven went to Milton on Wednesday and routed the college eleven there to the tune of 6 to 0. Rees, 'Gordie' Johnson, the 'Green' Brothers, Rootes and Will Akin played a star game. Akin as a captain, handled the team with excellent judgment. The Milton team will prove a strong team before the season closes. Whitney is sick, so 'Gordie' Johnson will be seen at left end in his place."

Dr. W. H. Palmer of Janesville was in town Friday to see James Vincent. Mrs. George Kelly of Minneapolis is visiting Milton relatives.

Mrs. H. W. Randolph did not return as expected, but will be home this week.

Sidney Green of Philadelphia, is making his mother, Mrs. J. I. Mack, a visit.

Gec. W. Algard of Oregon was in town Saturday.

Mrs. Myron Clarke of Berlin, and Miss Maud Green of Janesville, are visiting Mr. and Mrs. C. H. Goodrich.

Miss Mable Woodman of Janesville has been the guest of Miss Hansen recently.

Mr. and Mrs. Henry Koch, of Fairdale, Ill., are visiting Mr. and Mrs. J. C. Goodrich.

Rev. Mr. Schneider of Ft. Atkinson preached at the M. E. church Sunday morning.

Dr. J. M. Palmer and wife returned from their visit at the Pan-American Saturday. After a brief visit with Milton relatives they will go to their home at Gray's Lake, Ill.

Chas. Ferris and wife of Fort Atkinson called on friends in Milton Sunday.

George Warren and wife of Janesville were here Sunday.

Rev. T. W. North has for his theme

Sunday evening at the M. E. church: "The Young Man as a Man." Mr. and Mrs. Oliver Davis of Nortonville, Kan., were the guests of Mr. and Mrs. A. J. Wells last week, while enroute home from Duluth.

Supt. Throne was here on official business Thursday.

Mr. Sing of Canada, is the guest of Mr. and Mrs. David Walsh.

ROCK RIVER.
Rock River, Sept. 30.—Several from here attended church services at Milton Junction Saturday and Sunday. Mr. Elmer Vincent and wife and Harry Swader and wife attended the Jefferson county fair Wednesday. Mr. A. Rose arrived home from the east last Monday.

Ed. Brightman is visiting relatives at Buffalo, N. Y.

Several of our young people began school at Milton Junction Monday.

Frank Doran visited old friends on the River road Saturday.

The necktie social which was postponed last week will be held Thursday evening, next, Oct. 3rd, at the home of Mr. and Mrs. Elmer Vincent. A cordial invitation is extended to all.

Mr. Ira Bond and family expect to start Tuesday for their new home in Gentry, Ark. The best wishes of their many friends go with them.

RISKS
Are run by every woman who has household cares. It is so easy just to run out of the warm house into the fresh air, to pin a piece of lace to the clothes line. It is also easy to take cold in doing so. Then perhaps comes suppression and kindred evils. Whenever there is any disturbance of the normal womanly function Dr. Pierce's Favorite Prescription may be relied upon to re-establish perfect health. It is strictly a temperance medicine, containing no alcohol or whisky, neither opium, cocaine nor other narcotic.

"Several years ago I suffered severely from female weakness, prolapsus and menorrhagia, and used 'Favorite Prescription' with splendid effect," writes Fannie Shelton, of Washington, Iowa. "Glad I have not needed it for a few years past, but if I should have a return of the old trouble would surely try 'Favorite Prescription.' I have recommended it to a number of my lady friends. I always tell them to try a bottle and if they are not benefited by it I will pay for the medicine. In every case they have spoken in praise of it."

Sick women are invited to consult Dr. Pierce by letter free. All correspondence strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well.

Mrs. L. A. Harris, a Prominent Member of a Chicago Woman's Political Club, tells how Ovarian Troubles may be Cured without a Surgical Operation. She says:

"Doctors have a perfect craze for operations. The minute there is any trouble, nothing but an operation will do them; one hundred dollars and costs, and included in the costs are pain, and agony, and often death."

"I suffered for eight years with ovarian troubles; spent hundreds of dollars for relief, until two doctors agreed that an operation was my only chance of life. My sister had been using Lydia E. Pinkham's Vegetable Compound for her troubles, and been cured, and she strongly urged me to let the doctors go and try the Compound. I did so as a last resort; used it faithfully with the Sanative Wash for five months, and was rejoiced to find that my troubles were over and my health restored. If women would only try Lydia E. Pinkham's Vegetable Compound first, fewer surgical operations would occur."—MRS. L. A. HARRIS, 278 East 31st St., Chicago, Ill.

Every woman in the country ought to know about

Mother's Friend

Those who do know about it wonder how they ever got along without it. It has robbed childbirth of its terrors for many a young wife. It has preserved her girlish figure and saved her much suffering. It is an external liniment and carries with it therefore, absolutely no danger of upsetting the system as drugs taken internally are apt to do. It is to be rubbed into the abdomen to soften and strengthen the muscles which are to bear the strain. This means much less pain. It also prevents morning sickness and all of the other discomforts of pregnancy. A druggist of Macon, Ga., says: "I have sold a large quantity of Mother's Friend and have never known an instance where it has failed to produce the good results claimed for it."

A prominent lady of Lambert, Ark., writes: "With my first six children I was in labor from 24 to 30 hours. After using Mother's Friend, my seventh was born in 4 hours."

WISCONSIN WEATHER FORECAST
Partly cloudy tonight; fair and cooler Wednesday.

UNCLE ISAAC AND THE PUBLIC.

The Journal reprints today some more pleasant comments on the generous gift to Marinette by Mr. Stephenson for a library. Your Uncle Isaac may some day be convinced that The Journal was his true friend when it counseled him not to seek public favor by trusting his money to men who do not hesitate in business at criminality to invest in newspapers which devote themselves to virulent attacks on men and policies. Such support, personal and partisan, and bought at that, is an incumbrance that he could dispose of without delay. But here he has done a good deed and right thing and he receives a good word from all kinds of papers and all sources of public opinion. He has done such things before with like results. He will never thrive in public regard on a purchased press and partisan bitterness. There is a wider and nobler approach to the good opinion of men.—Milwaukee Journal.

Mr. Stephenson will discover, as will also Mr. La Follette, that the expressions of a personal organ, never carry much weight, because they lack the voluntary, spontaneous touch of honesty and good will, that inspires public sentiment, and prompts public utterances.

The newspaper is never the organ of an individual. When it prostitutes its columns to the defense or support of any man at the expense of popular sentiment, or public welfare, suspicion is aroused, and when the motive is revealed, financial, or other obligations equally binding, come to the surface.

The press of Wisconsin does not belong to the "organ" class. It compares favorably in point of intelligence and ability, with the press of neighboring states. While it is partisan, to the extent of being allied with the two great political parties that control state and national government, yet it has shown a disposition to be fair, and in treating questions of public interest, measures and not men are considered.

When the primary law was under discussion last winter, the issue was state-wide and of far significance. The man who evolved the scheme and prompted it at the expense of all other public questions, was a state official, honored by the highest office within the gift of the people. His name was so closely identified with the measure, that he had espoused as a hobby, that any attack on the measure was construed as personal, and the press was unjustly accused of descending to the level of personal abuse.

It was perfectly natural for men, both in the legislature and throughout the state, to take sides on this question, and it was just as natural for a majority of the legislative body, to decide with a majority of the people, that the measure was erratic and dangerous.

This decision, with all the discussion that resulted, led to the unfortunate widening of the breach, that now confronts the party in the state. The people are not responsible for these conditions; neither is the press.

For some reason, best known to himself, Mr. Stephenson is unnaturally allied with a measure in which he has no confidence, and forsaking his life long conservative associates, attempts the role of a leading exponent of a populist heresy. He soon discovered, as did the governor, that the conservative press as well as the conservative people, were not with him, and having the means at hand, "organs" were established in various localities to exploit the scheme.

The good name that Mr. Stephenson has long enjoyed as a liberal, public spirited citizen, has lost nothing of its lustre, and this is equally true of the governor. The commendable qualities of personal character are recognized by the press of the state. But the judgment of these gentlemen is questioned and criticized, not only by the press, but by public sentiment that the press seldom fails to reflect.

Governor La Follette, as well as Mr. Stephenson, possess many strong traits of character, that the people admire, and the press of the state recognize these elements of true worth and ability, while it will not be a party to supporting or exploiting theories that possess so many elements of danger to the welfare of the state.

INDUSTRIAL STOCKS.

While the year, nearing a close, has been one of the most prosperous in the history of the country, there are certain classes of investments, that do not promise to share in the general prosperity. Prominent among these is what is known as industrial stocks. Money has been so plenty during the past two years, that the opportunities for safe and permanent investment have not kept pace with the sup-

ply, and as a result, the market has been flooded with new industrial enterprises that gave promise of large returns on paper, and the irrepressible promoter, has found a profitable field of operation.

The great steel combine, the largest enterprise on record, stimulated all sorts of speculative ventures, and almost every industry, caught the spirit of expansion, and where combinations were not effected, stocks were watered, and the dividend paying capacity, naturally reduced.

To this was added the mining stock venture, the Texas oil fever and a host of other phantoms, that had nothing back of them but a prospectus, and a hole in the ground, or perhaps a stake to indicate the location of a hole some time in the uncertain future.

Millions of money has been invested in this class of stocks, on the strength of promised dividends, that the year is not likely to fulfill. This is no fault of the year, and is no argument against the prosperity of the country, but it evidences a lack of conservative judgment in making investments that were unwise, and that in ordinary times would not be considered.

When a man invests his money in industrial stocks in his home town where he is acquainted with the management, he is reasonably certain of a profitable investment if the concern is making money, although he may be a small stockholder. But conditions are changed when he enters the market, and seeks investments with hundreds of other men. From a small trader, he becomes a speculator, and while he may receive a certificate of stock, artistic in design, and richly embellished, he must not be disappointed if it proves in the end to be simply a reminder of speculative folly.

When the year closes there will be a larger class of these disappointed small stockholders than at any time in former history, because money has been so plenty, and the spirit of speculation very naturally developed. The safe rule to adopt, is to let industrial stocks alone, unless well acquainted with the history and management.

LIVE STOCK ASSOCIATION.

The National Live Stock Association, with headquarters at Denver, Colo., has arranged for a meeting in Chicago December 7th, the object of which is stated in another part of this paper.

Wisconsin should be well represented. The stock industry was never more important than at the present time, and if new legislation is needed it can be readily obtained by united action.

The progress of the age is so rapid that intelligence is demanded in every department. The National Live Stock Association possesses intelligence, backed by energy that means success. Every western state is especially interested in this movement, and Wisconsin should express her interest by liberal support.

MAY THE BEST BOAT WIN.

The international yacht race now going on, off Sandy Hook, is exciting lively interest on both sides of the water. The series of races will doubtless decide, whether Sir Thomas Lipton will continue to spend money freely for this class of sports. Should the Shamrock be defeated, Mr. Lipton will hardly feel warranted in making a third venture. Whatever may be the result, the contest, while spirited, is most friendly, and the prevailing sentiment is, "May the best boat win."

The little city of Spring Valley, Ill., with a population of 7,000, is said to have 500 anarchists, and supports one of the rankest publications in the country. Spring Valley will never find a better opportunity to reform, or more willing hearts to lend a hand, if necessary. The nest is said to be Italian. Raise a fund and send them home.

Coxey, of tramp army fame, discovered two years ago that the best way to influence legislation, was to "keep off the grass" and go to work. He is now a manufacturer, making money and contented. Mr. Bryan has made the same discovery. If he stays by the case as well as Coxey is doing, it will be a great relief to democracy.

Editor Noyce of the Marinette Eagle, is enjoying the pleasure of an "organ" bombardment at short range. It is safe to say that he will survive the shock, and when the smoke clears away there will be more "Eagles" than "Stars" in that neck of the woods.

Senator Wellington is also in mourning, but his state is not expressing much sympathy, and his colleagues in the senate will give him a cold reception. His mouth got the start of his brain, and an epidemic resulted.

There are more clean anarchists in the country just now than at any time since the Haymarket riot. A great many of them have been locked up long enough to take a bath.

Editorial columns of personal organs around the state are already filled with abuse, evidencing a vindictive spirit that is foreign to journalism, and that removes them from the field of legitimate publishers.

Senator Spooner has returned to Madison, where he will remain until

congress convenes. The "organs" that are so much exercised over the senator's movements, will be able to keep an eye on him at short range.

Gustav Kusterman, the new member of the state board of control, has the reputation of being an intelligent and energetic business man. He has been prominent in Brown county politics, and will be expected to hold the county for primary law reform.

John G. Woolley's explanation of his radical utterances, may satisfy Mr. Woolley, and possibly a few of his political followers, but public opinion has fixed the seal of disapproval, and life will be too short for Mr. Woolley to outlive the disgrace.

If hindsight was as good as foresight men would think twice before they spoke, and then they wouldn't speak. What the world needs is more thought and less erratic talk.

PRESS COMMENT.

Hudson Star-Times: These are days when some of the vindictive men who persecuted former Governor Scofield, to the very platform of the renominating convention should do sober, reflective thinking. How they, with ghoul's glee, poured the worm-wood and the gall into his sad soul while he carried that last sorrow for a dying son. It is to be hoped that factional hate will never again be forced to such an unholy pass in this or any other state.

Stoughton Hub: Somebody smashed the Spanish fleet at Santiago, when Sampson was a dozen miles away. Schley was in command, and if he didn't do it, who did?

Marinette Eagle: Admiral Schley received orders from the navy department which he did not obey. No amount of after brilliancy can discount an act of disobedience to higher authority during war time. The admiral must present a satisfactory excuse or he will not continue to be the people's favorite.

La Crosse Republican-Leader: The Missouri judge who declared that "the man who tries to teach the laborer that the government is at fault because one man is a laborer and the other a capitalist, is a criminal fool, little better than an anarchist," should have a statue of some sort.

Oshkosh Northwestern: The question has been asked whether Mr. Bryan is running his paper with the proceeds of his farm, or running his farm with the proceeds of his paper, or running both with the proceeds of his talk tours? We will wager a cow against an old straw hat that he manages to make all three of them pay.

Madison Democrat: All looks favorable for the nomination of Roosevelt in 1904. Only Roosevelt can beat him. He can cement his party into solid support of himself—or he can bring on a stalwart half-breed condition such as now makes political life unhappy in Wisconsin.

Evening Wisconsin: When Shaffer called the steel strike, his followers said, "He has a great head!" Now they say, "He had the big head!" To a foreigner both phrases look alike; but they don't mean precisely the same thing.

Green Bay Gazette: Admiral Sampson will not be allowed counsel at the Schley court of inquiry. Evidently Admiral Dewey proposes that the proceedings of the court shall be an investigation of the accused and not a persecution. The persecution has already gone far enough.

Racine Journal: It is very possible the open letters to Senator Whitehead are falling on exceedingly stony ground. John M. Whitehead is a very live man and possessed of requirements that make him a real force among the people.

Appleton Post: It is just possible that there wouldn't be as much of a schism in the republican party in Wisconsin as there is if the Milwaukee Free Press were not devoting the much greater part of its editorial space to that subject.

Fond du Lac Reporter: Because he was never mustered out of the service as a soldier, during the civil war, Captain Lockwood, of South Dakota, has presented a bill of \$22,266 to the government for services. If this bill is valid it will be an expensive oversight on the part of the mustering out officer.

Madison Journal: The Madisonian is hardly envied its offensive task of belittling its fellow townsman, John C. Spooner, but that's the conception of politics in 7x9 brain boxes.

Manit's Weekly: Another prolonged legislative session is a foregone conclusion since the return of Senator McGillivray is probable.

Kilbourn Mirror-Gazette: There seems to be a pretty general opinion that if Spooner is a "stalwart" and one of the "corrupt political ring," the state would be better for some more of the same sort. Men who are posted on their country's affairs will not turn Mr. Spooner down at the command of ever so "popular reform" command.

Appleton Post: Increasing amiability is becoming noticeable among the esteemed half-breed brethren. Not satisfied with all the names they had previously coined for the stalwarts, some of them are now characterizing the latter as "political anarchists." As there are no anarchists but political anarchists the next we know the versatile half-breeds will be claiming Herr Mead, Emma Goldman, et al., as the real leaders of the new Republican League in Wisconsin.

FILIPINOS HAVE BIG LOSS

One Hundred and Forty Insurgents Are Slain.

NEW REPORT OF THE BATTLE.

Sergeant Markley and a Private Escape Across the Bay to Tanuan, Leyte, and Tell of the Action—Crucity of Native Leader.

Manila, Oct. 1.—Sergeant Markley and a private of company C of the Ninth Infantry, which was surprised and many of the men killed in Balangiga, Samar, by a band of insurgents, escaped across the bay to Tanuan, Leyte, and have made a report on the action. The sergeant and private evidently did not know of the escape of twenty-four of their comrades to Basey, Island of Samar. They report that 400 bolomen attacked the garrison of Balangiga, who were at breakfast and were without their arms. A majority of the men in the barracks were killed. One hundred and forty natives were killed in the fight. General Hughes is going to the scene of the disaster, and will personally command the troops. The American officers at Manila do not attempt to explain the massacre, except on the ground of overconfidence on the part of the troops at Balangiga, and lack of watchfulness. This was due, probably, to the extreme friendliness of the presidente and townspeople, who recently welcomed the Ninth with music and feasts.

How Americans Were Surprised. Presumably the insurgents waited until the men were at breakfast, and therefore unarmed. The officers would undoubtedly mess together in the convent, and this would make necessary attacks at different points. Unless the natives were able to secure unopposed access to the convent it is thought the officers would be able to make a good resistance, but the enlisted men, being without their officers at the time and in unprotected quarters, would have been at the mercy of their assailants.

Lucban Noted for Cruelty. To those officers familiar with the conditions in Samar the occurrence is not altogether surprising. General Lucban, who has been at the head of the insurrection in Samar, is one of the cruelest of the insurgent leaders. When Adjutant General Corbin was in the Philippines it was thought in Manila that Lucban had left Samar and was in Southern Luzon endeavoring to arouse the inhabitants of Cebu and stir up an outbreak there. If Lucban was in Cebu he would be well informed as to the movements of the Americans, and would have known definitely of the strength of the garrison. There is no doubt among the officers here that, having learned of the assassination of President McKinley, he concluded it would be an excellent opportunity again to stir his followers to action.

PLOT TO MURDER WHITES.

New Branch of the Katipunan Discovered at Talarac.

Manila, Oct. 1.—A new branch of the Katipunan has been discovered at Talarac, capital of the province of that name. The object of the society is the slaughter of the whites. Marcelino Marilive, president of Banang, is the chief of the new branch, which includes numbers of the native constabulary, who were recently armed. One policeman admits that he was taxed \$1 and was ordered to make bolos. A regular collection has been made by the organization from the natives, either by persuasion or threats and an uprising had been planned for an early date. The conditions in Talarac and Batangas are not reassuring. The worst form of guerrilla warfare prevails there. The insurgent forces are distributed, under cover, along every road and trail, and wait for travelers in ambush. The insurgent leader Caballero, who formerly belonged to Gen. Calles' command, but who refused to surrender with Calles, is retreating to the mountains. The main forces of the insurgents are scattered in bands over the province, where they dig up rifles when there is an opportunity to use them.

Notice is hereby given that the following application for a franchise to construct, maintain and operate a street railway in the city of Janesville, Wisconsin, was filed by George J. Hurd, in the office of the city clerk in the city of Janesville, Wisconsin, on the 21st day of September, A. D. 1901.

To the Mayor and Common Council of the City of Janesville, Wisconsin:

I, George J. Hurd, hereby apply to your honorable body for the right, privilege and franchise to construct, maintain and operate a street railway in said city of Janesville, with all necessary switches, sidetracks, turnouts, vias, poles, wires, curves and other structures along and across certain streets and avenues particularly mentioned in the proposed ordinance hereto annexed, and made a part hereof, and I pray the lawful adoption of an ordinance granting said right, privilege and franchise.

Dated September 21st, A. D. 1901. GEORGE J. HURD.

An ordinance granting to George J. Hurd, his successors or assigns, the right to construct, maintain and operate a street railway in certain streets and avenues in the city of Janesville, Rock county, Wisconsin, and prescribing the terms and conditions upon which such railway shall be constructed and operated by said railway.

The Mayor and Common Council of the City of Janesville do hereby ordain as follows:

Section 1. George J. Hurd, his successors or assigns, shall have the right, privilege and franchise to construct, maintain and operate a street railway for the carriage of passengers, with single track, with all necessary switches, sidetracks, turnouts, vias, poles, wires, curves, and other structures, in, along and upon the following streets, to-wit:

Commencing on Milwaukee avenue at the intersection of Jackson street and extending easterly along and over said Milwaukee avenue and over all the intersecting streets and avenues to the city limits, or, at the option of said George J. Hurd, his successors or assigns, commencing on Main street at the intersection of Beifeld street and extending easterly along and over said Milwaukee avenue and over all the intersecting streets and avenues to the intersection of Eastern avenue; thence easterly along and over said Eastern avenue and over all the intersecting streets and avenues to the city limits; and also over and along any or all of the streets and avenues now occupied by the tracks of the Janesville Street Railway Company, provided the right or franchise of said company is first purchased or leased or otherwise obtained; and over, along or across such other streets and avenues in said city as may from time to time be agreed upon by said George J. Hurd, his successors or assigns, and said common council.

Section 2. The mode and manner of constructing of said railway shall be as follows: The grade of said street or streets in said streets at such location in said streets as the said George J. Hurd, his successors or assigns shall designate and the Common Council shall approve, and shall be laid and maintained at the present or established grade of said street or streets over which it shall pass; and in case at any time the city of Janesville shall change the grade of any street, said George J. Hurd, his successors or assigns, shall change the grade of the track to correspond to such new grade at his or their own expense, and without any claim against the city for any damage resulting from such change of grade. The rails of such track shall be laid in such manner as to be of no impediment as practicable to the free and ordinary use of the streets and avenues and to the passage of wagons, carriages and other vehicles on or across said track at any point, and in any and all directions and with such suitable centers at any and all points, and so as to permit the free flow of water falling or accumulating on said streets. At all street crossings where there is no paving the track shall be so placed and otherwise constructed as to make safe and convenient crossings for all kinds of vehicles as well as pedestrians, and such crossings shall be maintained in constant good repair.

Whenever the city of Janesville shall pave or otherwise improve any street or streets over which said track or tracks shall pass, the said George J. Hurd, his successors or assigns, shall pay the actual cost of such paving or improving for a space of seven feet for single track and fourteen feet for double track and the cost and expense for such portion of said pavement or improvement shall be assessed to and become a charge against the property of said company, and collectible in the same manner as provided by law for the collection of special assessments against real property fronting on any street or streets which have been ordered paved or improved by said Common Council, or such cost and expense may be recovered by action against said company at the option of the Common Council. Provided that in computing said strips of seven and fourteen feet, the space included within the tracks of said railway company shall be included as a part thereof. When such railway crosses or runs on any street or avenue that has been paved or improved said railway shall lay its track and put the paving back to the satisfaction of the street commissioner as to the street or avenue to as good condition as before the track was laid. The gauge of the track shall be four feet eight and one half inches. Any part of any street over which said track shall pass outside the limits herein required to be paved or improved by said George J. Hurd, his successors or assigns, which shall be excavated or destroyed in the construction of said track shall be restored as soon as possible to its former condition of usefulness. All excavated earth, rubbish or debris accumulated during the construction of the track shall be promptly removed from the street or avenue, and care shall be taken in the construction of the track to obstruct travel upon the street or avenue as little as possible. On streets not paved, all cross walks which shall be taken up in the construction of the track shall be promptly relaid with the same or similar material and restored to as good condition as before.

Section 3. Said railway shall be operated with electricity with overhead wires, or other motive power, approved by the common council, except that motive power and said George J. Hurd, his successors or assigns, shall have the right to erect all necessary poles or other mechanical contrivances for the purpose of carrying telephones, telegraph or electric light wires for said railway or for the purpose of furnishing power service to others, inside the city, and for the furnishing power, electric light, telephone or telegraph service to others outside the city limits, subject, however, to all conditions and

provisions of an ordinance entitled, "An ordinance to regulate the lighting of streets in the city of Janesville," passed October 10, 1892 and of an ordinance entitled "An ordinance relating to the installation of metallic return circuits for conveying electricity used as a motive power for railroads and street railways," passed January 7, 1902 and to such other ordinances of said city as are now in force or which may hereafter be in force of a police nature, which said city is authorized and may deem proper to enact.

Section 4. Said George J. Hurd, his successors or assigns shall place and maintain thereon approved motor cars, with the modern conveniences for the comfort of passengers, shall light the same at night, and in cold weather they shall be comfortably heated. Each motor car shall unless the Common Council shall otherwise prescribe, be provided with a headlight which shall be kept burning after sun set and with a gong or bell for danger signals.

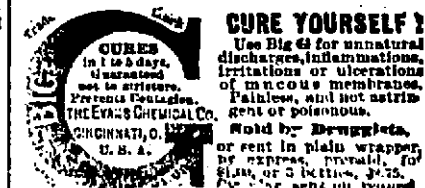

Section 5. Said George J. Hurd, his successors or assigns will take the rights and privileges herein granted, subject to the right of the city of Janesville to ordain and establish such reasonable regulations as the Common Council shall with a free and fair power may from time to time prescribe in respect thereto.

Section 6. The rate of a fare for carrying passengers upon said railway shall not exceed five cents for a single fare from any point upon said route within the city of Janesville in one direction.

Section 7. Said George J. Hurd, his successors or assigns shall keep the track and all of the structures, including the space between the tracks at switches or turnouts, free and clean from dirt, and snow or ice or other debris, and in removing snow shall leave the same as not to obstruct or interfere with the free and easy passage of said street or streets. In case the fire hose or other fire apparatus shall at any time be upon the track of said railway cars shall be stopped or operated so as not to injure the same or interfere in any way with the fire department in endeavoring to extinguish a fire.

Section 8. The cars belonging to said railway shall not be entitled to occupy the street or any vehicle or vehicles upon such track shall turn out at the approach of any car so as to leave the track unobstructed.

Section 9. The city of Janesville reserves the right to grant to any other person the right to construct and operate a street railway, the right to cross the track of said railway hereby established at grade upon such terms as the Common Council may deem just and reasonable, and may, by agreement, by arbitration or otherwise between themselves.

AGAIN CALLS ON DUBBIN.

Arthur Goebel Making Efforts to Have W. S. Taylor Extradited.
 Indianapolis, Ind., Oct. 1.—Arthur Goebel and the other men from Kentucky who on Saturday applied to the governor for a regulation for the return of W. S. Taylor and Charles Finley called at the governor's office again today.
 Gov. Dublin told them to call again this afternoon. The governor's secretary said it was probable that no formal answer would be made by the governor today, but it is practically understood that he will decline to consent to the return of the accused men.

THREE KILLED IN WRECK.

Fatal Results of Collision of Freight Trains on New Haven Road.
 Bridgeport, Conn., Oct. 1.—Three men were killed and two seriously injured in a collision of freight trains, head-on, on the Berkshire division of the New York, New Haven and Hartford railroad at Long Hill. The dead are: Engineer E. Burns, Fireman Gustafson of the north-bound train. Brakeman Naly of the south-bound train. The injured are: Engineer Holt, Fireman Pitcher of the south-bound train. Both engines and many cars were piled up, stopping all traffic.

ILLINOIS STATE FAIR OPENS.

Exhibits in All Departments Are Unusually Large.
 Springfield, Ill., Oct. 1.—The Illinois state fair opened with exhibits in all departments larger and finer than in previous years. The weather is beautiful, with cloudless skies and temperature about 75 degrees.
 A coliseum for exhibiting live stock, erected at a cost of \$20,000, and capable of seating several thousand people, and an annex to machinery hall, reaching from machinery hall to the dome building, are the principal improvements on the grounds this year.

NAVAL APPOINTMENTS.

List of Officers in Marine Service Named by Roosevelt.
 Washington, D. C., Oct. 1.—The President to-day made the following appointments in the navy:
 Theodore S. Thompson, pay director, rank of captain; Hiram E. Drury, pay inspector, rank of commander; Joseph Fyffe, paymaster, rank of lieutenant; George R. Venable, passed assistant paymaster, rank of lieutenant, junior grade; Charles Morris, Jr., and John W. Morse, passed assistant paymasters, rank of lieutenant, junior grade; George E. Burd, lieutenant-commander; William F. Spicer, lieutenant-colonel, marine corps.

A FITTING TRIBUTE

A Citizen of Janesville Pays a Well-Earned Tribute.

The following public statement of a respected citizen, adds one more emphatic endorsement of merit to the scores that have appeared before:

Mr. E. Dillenbeck, of 126 Milton Ave retired farmer, says: "My wife was roused with kidney complaint for four or five years, and complained of pains in the small of the back in the region of the kidneys. The symptoms all indicated that the kidneys were deranged, and the doctors who treated her said that those organs caused the trouble. As she did not get any better we thought Doan's Kidney Pills might give her relief, and procuring them at the Peoples drug store, I had her use the remedy. It did for her all that could be expected. We can recommend Doan's Kidney Pills and you can use our names as saying what has been stated above."

For sale by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for Y., sole agents for U. S. Also on sale at King's Pharmacy.

Remember the name, Doan's and take no substitute.
